### CONFIDENCE JUST GETTING WISE NOW DECLARES ROGERS

(Special To The News)  
BEVERLY HILLS, Cal., Nov. 21.—Been looking to see what could do toward restoring confidence, and discovered the following facts:  
Confidence hasn't left this country, confidence has just got wise, and the guys that it got wise to are wondering where it has gone. Railroad men of the country held a meeting in Washington and decided to put on more bus lines.

Newspapers heading the fact that 19 were killed in Mexico election day. And it should be headlined, for it is astonishing to us, for we can jump off that many electing an alderman in Chicago, or any of our big cities. Mexico has got a long way to go before they approach our state of civilization.  
Yours,  
WILL.

### PA NEW OBSERVES

Frozen radiators were apparently in style again this morning. Pa. News saw one that was steaming out the top in a manner that indicated Jack Frost had been at work.

Galloshes are also back in service. Slush underfoot last night before the weather changed and the slush formed into ice, made travel rather disagreeable. Rubbers also had the call.

Another sign of the weather—chains on auto wheels were heard clanking merrily last night.

The small boy is pleased—enough ice formed during the night to make some skating possibilities.

Hunters were out early this morning. Fields and woods are covered with snow, and it is just right for tracking.

Work is in progress on installation of the printer telegraph system to connect Harrisburg with the New Castle police station. It is expected that this system will be in use by the first of the year. The State police headquarters will be in immediate communication with all important police stations in the state by the new system.

Steam shovel is at work on excavating for the new repeater station for the A. T. and T. Company on the New Bedford road, just outside the city. This construction job is to be rushed to completion.

The new First United Presbyterian church at Clennore and Albert streets takes on the appearance of a finished building, most of the exterior work being done.

Although quite a number of motorists in the local district are believed to have neglected to have their machines inspected during the period prescribed by the state, Pa. News has observed just one of these being driven. A rather dilapidated looking car was seen on North street yesterday, which bore no yellow tag. Drivers of these vehicles are subject to a fine.

Although close to an inch of snow fell here yesterday, very little of it stayed on the ground, due to the warmth of the earth. Quite a lot of automobiles with a white covering over the top were noticed today on the streets.

The sudden cold snap will put an end to the rise of local streams, which will probably be back near a normal stage in a few days. The Neshannock has fallen considerably during the last 24 hours and will soon be at a normal level.

Pa. News noticed the lights on the North street bridge were lighted as early as 2 o'clock in the afternoon, several days ago.

There has been a tendency, according to Dr. J. M. Popp, on the part of railroad crossing gatesmen to put down their gates in the early evening and

### Daily Weather Report

Weather statistics for the 24-hour period ending at 9 o'clock this morning are as follows:  
Maximum temperature, 36.  
Minimum temperature, 27.  
Precipitation, .03 inches.  
River stage, 9.9 feet and falling.

### Tidal Wave Hits South Coast Of Newfoundland

Fragmentary Reports Indicate "Terrible Disaster" Has Occurred

#### HEAVY PROPERTY DAMAGE REPORTED

Believe Tidal Wave Result Of Disturbance On Floor Of Ocean

ST. JOHNS, Newfoundland, Nov. 21.—A "terrible disaster" on the south coast of Newfoundland, in which at least 27 lives were reported lost, as a result of a tidal wave swept the coast on Monday, was reported in fragmentary wireless dispatches reaching here today.

The tidal wave is believed to have resulted from the disturbance which occurred on the floor of the Atlantic ocean on Monday, coincident with the earthquake which shook the Atlantic coast from Nova Scotia to New York. According to the fragmentary radio dispatches reaching here, nine persons, mostly women and children, were drowned at Burin Island, off the mainland peninsula which separates Fortune Bay and Placentia Bay. Sixteen dwellings were washed away there.

Eighteen lives were reported lost at Lewis Cove, and Lemaline. The number of buildings destroyed at those places was not given in the dispatches.

Heavy property damage was reported at St. Lawrence, but there was no mention of any loss of life there. The first reports of the disaster were received here from the steamer.

### Pennsy Veterans Gather Saturday

Annual Reunion To Take Place In Carnegie Auditorium Here

#### EXPECT 275 WILL SHARE IN PROGRAM

Two hundred and seventy-five persons are expected to gather in the Carnegie auditorium on South Jefferson street at noon on Saturday, November 23, on the occasion of the ninth annual banquet and reunion of Erie and Ashabula Division Veterans.

From all indications this year's gathering of the railroaders, some active and some retired, will bring together the largest crowd of E. and A. vets ever assembled, coming from different points on the division.

E. M. Fisher, president of the association and his staff members along with a special committee have taken upon its shoulders the multitudinous details of the affair. They are being completed today. Plans have been made for a splendid dinner with a memorial service for those comrades who departed from their ranks during this past year will mark the close of the reunion late in the afternoon.

Officers Of Year  
Mr. Fisher is the president of the veterans while Frank J. Middleton is the vice president and A. E. Stahl is the secretary. L. C. Gleason is general.

### Chicago Reports Winter Weather, Mercury At 20

Cold Wave Moves Eastward Is Reported From Mid-West; Real Winter Weather

(International News Service)  
CHICAGO, Nov. 21.—Real winter weather descended on Chicago and the middle west today, shoving the mercury down to 20 degrees above zero here.  
The cold wave, according to meteorologists, is advancing eastward across the country.

### GRADE CROSSING CRASH FATAL TO FIVE WOMEN

(BULLETIN)  
(International News Service)  
DALLAS, Tex., Nov. 21.—Four women were instantly killed and a fifth was fatally injured at a railroad-street crossing here today when a Santa Fe motor train, eastbound to Paris, crashed into their light sedan.  
Only two of the dead had been

identified a half hour after the accident. They were: Miss Dolly King of Mineral Wells, Tex.; and Mrs. E. G. King of Fort Worth.  
One of the women, alive when rescuers pulled the bodies from the car, died on the way to a hospital. A negro chauffeur driving the machine at the time of the wreck, was seriously injured.

### Hoover Confers With Leaders Of Big Industries

President Seeks Cooperation Of Industrial Heads In Business Expansion

#### CONFEREES TODAY QUITE PROMINENT

Plans To Establish Assurance That American Business Is Basically Sound

By GEORGE R. HOLMES  
International News Service Staff Correspondent

WASHINGTON, Nov. 21.—President Hoover turned to the industrial leaders of the country today for further assurance that American business is basically too sound to be disturbed in any vital way by the speculative gyrations of the stock market.

Already assured that agriculture is in good shape and that the railroads of the country are proceeding full steam ahead with improvements and expansions, the President summoned to the White House today a score of leading industrialists for counsel as to their future plans, and to enlist their business in the national effort to keep the country on a steady keel during the period of unsettlement brought about by the decline in securities prices.

#### Industrial Blue Book

The list of the President's conferees read like an industrial blue book of America.  
Coming into the capital this morning were leaders in the automobile industry, such as Henry Ford and Alfred P. Sloan, president of General Motors. There were kings of the day's announcement, though it was readily seen that the inclusion of Daves, Morrow and Gibson gave assurances of a strong committee, plentifully supplied with diplomatic talent.

### Good Funeral Train Passes Through City

Attached to the Capitol Limited, four special cars comprising the funeral section of the late Secretary of War James W. Good, went through New Castle on the Baltimore & Ohio Railroad at 11 o'clock Wednesday night.

In one car lay the remains of the late secretary, while the three other cars contained high officers of the army and navy, members of the cabinet of President Hoover and men in other branches of the government service.

The body of the late secretary is being taken to his former home in Iowa where the funeral will be conducted.

### Firemen Called To West Side Home

Truck B from Central station and the Sixth ward department, were called to the home of C. H. Snyder of 911 West Washington street this morning by an alarm from box 67.  
The furnace pipe had become overheated and scorched the wood, but no fire resulted. Damage of approximately \$10 was done.

### Naval Delegation Selections Given Hearty Approval

President Names Personnel Of U. S. Delegation To Naval Parley

#### HOOVER REMOVES SOURCE OF FRICTION

Able Diplomats Are Selected To Present U. S. Side Of Problem

(International News Service)  
WASHINGTON, Nov. 21.—All quarters seemed serene today following the White House announcement of the American delegation that is to carry the "Hoover doctrine of naval arms reduction" to the five power conference which opens in London January 21.

Charles Francis Adams, secretary of the navy, Charles G. Daves, ambassador to Great Britain now in London; Dwight W. Morrow, ambassador to Mexico and Hugh S. Gibson, ambassador to Belgium, were the delegates named late yesterday by President Hoover to serve with Secretary of State Henry L. Stimson, Senator David A. Reed (R) of Pennsylvania, and Senator Joseph T. Robinson (D) of Arkansas. The three latter had previously been named. Admiral William V. Pratt and Rear Admiral Hilary F. Jones, retired, have been designated as "naval advisers."

The naming of Secretary Adams will assure the administration of the navy, where some friction was forecast when it was reported that Rear Admiral Jones would not attend the conference as an adviser. Adams' appointment, it is apparent is designed to guarantee 100 percent support from the navy personnel, with the secretary himself as an official delegate and with the two naval officers as advisers.

#### Stimson is Chairman

Secretary Stimson will be the chairman of the delegation and will speak for the President.  
Ambassador Morrow is held in the highest esteem by the President for his able diplomacy in Mexico.  
Ambassador Gibson is well versed in world disarmament technicalities, having been chairman of the Coolidge conference at Geneva in 1927.

Ambassador Daves served on the administrative staff with the American expeditionary forces and as a member of the military board of allied supply and has since his appointment to the Court of St. James won the confidence of the MacDonald government.

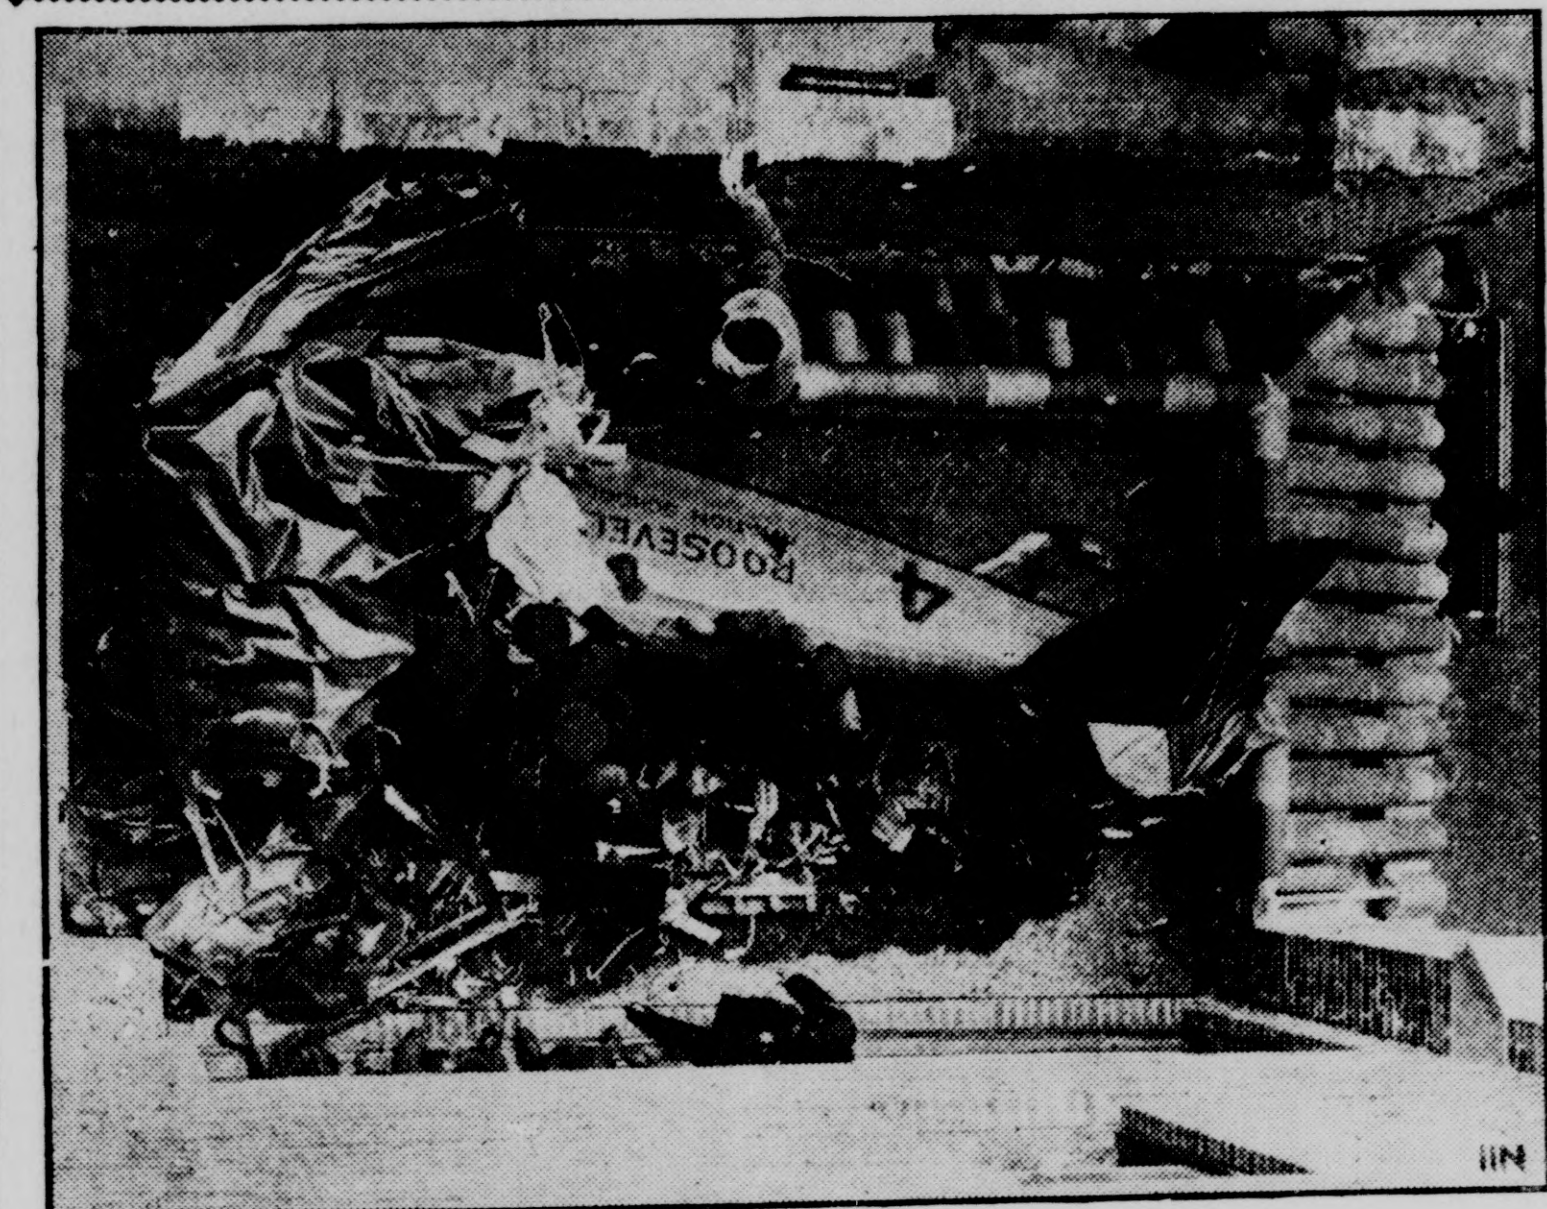

Senators Reed and Robinson are members of the senate foreign relations committee.  
Rear Admiral Jones then a full admiral, was also a delegate to the unfortunate Geneva parley.

Admiral Pratt is commander in chief of the United States fleet and was advisor to the Washington conference in 1921 supporting the Hughes "scrappling program."

### Snow Plows Used In Erie County

(International News Service)  
HARRISBURG, Nov. 21.—The first snowfall of the season of sufficient depth to require use of snow plows was reported today to the department of highways from sections of Erie county. All roads were reported open.  
A light snowfall was reported from the Hollidaysburg district. High points in the Allegheny mountains on the Lincoln highway were reported as slippery from sleet which fell during the night.

### PLANE FALLS THROUGH ROOF

NEW YORK, Nov. 21.—A unique view of the New York airplane disaster, looking down at officials examining the Y. M. C. A. building at No. 12 West 64th St. The pilot, Charles Ried lost his life in the accident, but a passenger, Student Robert Baile, of New York, saved his life with a parachute leap.

### FIND THIRD SKELETON IN NEW JERSEY SWAMP

(International News Service)  
CAMDEN, N. J., Nov. 21.—Discovery of the skeleton of a third child in the South Jersey swamplands led to the questioning of Gladys May Parks Baker again late yesterday, but authorities were convinced today the ex-cabaret girl had nothing to do with the death of this infant.  
The remains of the child were found in the woods near Malaga, N. J., only a few miles from Absecon and National Park, the scenes where the bodies of the two little children of Allan Rodgers, Dorothy, 5, and

### Charges Police Refuse To Aid

Bootleggers Are Protected  
Declares John D. Pennington, Dry Enforcer

#### CITES CONDITIONS IN PITTSBURGH

(International News Service)  
PITTSBURGH, Nov. 21.—"We cannot leave enforcement entirely in the hands of the state and county and city authorities in Allegheny county and Pittsburgh, because bootleggers are protected here up to the point of murder," Commander John D. Pennington, prohibition administrator in this district, said today.

The charge against local authorities came from Pennington when he was asked about rumored orders from J. M. Doran, prohibition commissioner, that the use of constables and justices of the peace be curtailed.

"We intend to expand our employment of state and county officers," Pennington said in denying the rumor. "Our ultimate aim is to let prohibition enforcement be handled almost entirely by state and county authorities. That is already the case in 20 out of 25 counties in western Pennsylvania in our jurisdiction," Pennington asserted.

It was in connection with that policy that Pennington explained why Allegheny county and Pittsburgh authorities are not used extensively in prohibition enforcement.

The administrator cited numerous specific cases wherein Pittsburgh police have stood by, refusing cooperation in raids and even aiding and abetting those raided by federals. In one case he cited Pennington said that a patrolman struck one of the federal operatives with a night stick during a raid on a saloon.

### Harry Sinclair Walks From Jail After Midnight

Millionaire Oil Magnate, Sentence Completed Returns To His Wife In Hotel

#### POSES MANY TIMES FOR CAMERA MEN

(International News Service)  
WASHINGTON, Nov. 21.—Harry F. Sinclair, oil magnate, was a free man today with his wife at a hotel after serving a term in the district jail since May 6 on two contempt charges, one of the senate and one of the district supreme court.

It was just seven minutes after midnight today when he walked out of the jail door and faced a battery of camera men and the "talkies." He immediately issued a long printed statement maintaining his innocence and proclaiming he had been "railroaded" to jail.

#### Leave For New Jersey

Immediately upon leaving the jail Sinclair was joined by his brother, E. W. Sinclair and G. T. Sanford, his personal attorney. They entered a closed car and motored to the Mayflower hotel where Sinclair joined his wife. They expected to leave today for the Sinclair Ranocas Farms estate in New Jersey.

"I was railroaded to jail in violation of common sense and common fairness," his statement said. "The great power and prestige of the government were employed against me under hostile influences and prejudiced by a campaign unjustly describing me as a defiant of the law. I was a victim of political campaigns to elect honest Democrats by proving how dishonest Republicans were."

Declared In Contempt  
Sinclair had been declared in contempt of the senate when he refused to testify in the Teapot Dome investigation, and of the supreme court for jury shadowing in connection with his criminal trial in the oil scandals.

The oil magnate looked somewhat thinner, but appeared to be in better health. He was dressed in a neat pin striped suit, and chatted in a friendly manner with the camera men. When they slowed up in their work, he chided them but said, "Take your time. It isn't hurting me," and later when a particularly heavy flash went off remarked, "I wasn't hurt; shoot again."

Then the "Talkies," he said: "Gentlemen of the newspaper profession: I want to thank you very kindly for the lovely reception you have given me tonight. After additional practice, I think these press receptions may be improved."

Then with his brother and attorney, he stepped into his limousine, saying, "I am going to spend the night at the Mayflower hotel."

### Raise Question As To Sanity Of John D. Seevers

Court Appoints Commission To Examine Man Indicted For Two Murders

#### APPLICATION BY DISTRICT ATTORNEY

Result Of Hearing To Determine If Seevers Is To Be Tried In December

Petition for a commission in lunacy to determine the sanity of John Dewey Seevers, under indictment for the murder of his wife, Stella Seevers, and Mrs. Catherine Rodgers, was presented to Judges Hildebrand and Chambers Wednesday afternoon by District Attorney, J. Elder Bryan. The court appointed Former District Attorney, George W. Muse, and Drs. Loyal W. Wilson and C. F. McDowell, as members of the commission.

District Attorney Bryan's action was taken under section 308 of the act of 1923, known as the mental health act. This provides that when any person awaiting trial, or who has been convicted, is believed to be of unsound mind, any official may make application to the court to have a commission appointed to examine the prisoner. If, after a thorough examination, he should be found to be of unsound mind, the court can send him to some institution for treatment until his recovery or until it is demonstrated that the patient is incurable.

Arrested For Double Murder.  
Seevers, whose home is in Cleveland, O., was arrested for the murder of his wife, Stella Seevers, and Mrs. Catherine Rodgers, a friend of the family. The murder occurred on the New Castle-New Bedford road on July 25. The three persons mentioned were coming toward New Castle in an automobile, when an altercation arose which resulted in the shootings.

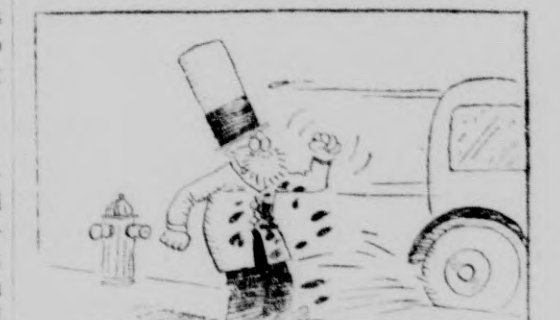

At the time of the shooting the Seevers machine was being chased by a state policeman. Seevers ran it into the gutter and shot his wife and Mrs. Rodgers before the state policeman could prevent. Mrs. Rodgers' little boy and Mr. Seevers, the elder, were also wounded.

Case Delayed.  
Seevers was immediately arrested and placed in the Lawrence county jail. He was indicted at the September term of court and it was expected that the case would come up for trial at that time. However, his attorney, one of whom resides in Cleveland, asked for a continuance on the grounds that they would be unable to secure witnesses in time.

The specific allegation was that Seevers had been suffering from a venereal disease, which had sapped his strength and had enfeebled his mind. It was intimated that the defense would be insanity. It was claimed that several physicians in Cleveland and in other cities had at-

You may be as dry as Sahara's expanse, prohibition you argue is set, but you'll need quite a drink for your automobile, and that drink, alcoholic I'll bet. For the weather is such that your car has to have, some alkali to keep out the frost. And the fellow who falls to take care of his car, will find that his error will cost. For the time is now here for the anti-freeze dope, you can like it or leave it I won't, but unless you take care of the tank in your car, your car will freeze up like as no. For the weather is near to the dangerous line, and it likely will drop down some more, and the cry is for alkali to spare yourself woe, for it's chilly today, thirty-four.

## Woman To Testify Against McManus

North Carolina Woman Pa-  
tron Of Park Central  
Hotel To Give Her  
Testimony

By JAMES L. KILGALLAN  
International News Service Staff  
Correspondent  
NEW YORK, Nov. 21.—A woman "surprise witness," Mrs. Marion A. Putnam of Asheville, N. C., will be called to the stand at the trial of George A. McManus for the murder of Arnold Rothstein, Broadway's "king of gamblers," to prove that Rothstein was shot in McManus' room in the Park Central hotel on the night of November 4, 1928. Assistant District Attorney George N. Brothers declared in his opening address to the jury today.

"She had a room on the third floor, near room 349, which McManus had engaged under the name of George Richards," said the assistant district attorney. "At almost 11 o'clock that night she heard loud voices, then an oath and then bang the revolver shot. Saw Rothstein Stagger."

"She saw a man stagger out of the room, his hands pressed to his abdomen."

Brothers admitted to the jury the state cannot produce a witness to testify he saw McManus fire the fatal shot, but added "It is the firm conviction of the state that he did."

The shooting occurred between 10:30 and 11 p. m. Brothers said Bridget Parry, chambermaid at the Park Central, would testify McManus was in room 349 at 10:20.

"We will show McManus' overcoat was found in the room after the shooting," said Brothers. "Also a pocket handkerchief with his initials on it."

Brothers said Mrs. Ruth Keyes of Chicago, a model, would be produced to prove McManus had been drinking the afternoon of the crime.

### AUTO DAMAGE CASE

In the case of A. R. Hodge against the Purple Stages company, a jury at court awarded the plaintiff \$265.10 for damages to an automobile, which was struck by a bus of defendant company.

Mrs. Adeline Phenice of W. Grant street, who recently underwent a very serious operation at the New Castle hospital, is much improved and has been able to be removed to her home.

## AClearComplexion

Ruddy cheeks—sparkling eyes—most women can have. Dr. F. M. Edwards for 20 years treated scores of women for liver and bowel ailments. During these years he gave his patients a substitute for calomel made of a few well-known vegetable ingredients, naming them Dr. Edwards Olive Tablets. Know them by their olive color.

These tablets are wonder-workers on the liver and bowels, causing a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, hollow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, take one of Dr. Edwards Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards Olive Tablets—now and then to keep fit. 15c, 30c and 60c.

early mornings, when there is often fog, without the customary red lantern attached to the end of them as required by law. This has been the cause of some near serious accidents and Dr. Popp believes that the city should see to it that the red lanterns are used and suggest that they be cleaned up so that they may be seen when in use.

eral chairman for arrangements, tickets, so forth and has assisting him a capable staff of sub-chairmen, consisting of J. Middleton, S. B. Bryenton, J. R. McGuire, J. P. Clark, H. A. Moore, W. T. Weschler, Joseph Wolf and A. E. Stahl.

Mr. Middleton heads the reception committee with the following members: Frank V. Rogers, F. E. Flowers, C. H. Comstock, J. P. Clark, Joseph Wolf, L. M. Campbell, H. C. Limber and W. A. Glasser.

Dinner will be served promptly at 12:30 with the ladies of the First United Presbyterian church in charge of the serving. Present at the banquet and program will be the retired veterans of the division, some 45 of them. They will attend as guests of the organization.

Band To Play  
Members of the E. and A. band under H. L. Culbertson's direction and the division's 12-piece orchestra, known as Richards' Pennsylvanians, will furnish music during the dinner.

J. C. Hamrahan, division operator will preside as toastmaster over the speaking program that will follow. While no set speeches have been arranged it is intended to have responses from the different types of service.

Immediately following the speaking program will come a program of vaudeville entertainment. A selection by the Castle Singers, composed of George Anthony, first tenor; J. O. Strimmar, second tenor; R. E. Johns, baritone; and Harry Evans, bass, will mark the opening number. Roy Strobel will accompany them.

June Fisher, little daughter of Mr. and Mrs. E. M. Fisher, will then do a solo dance. An act, entitled "Coolie and Master" in which one of the veterans will display the tricks of his highly trained coolie dog will be next.

Following this the quartet will sing again. The blue ribbon entertainers playing on the accordion and banjo will offer the closing musical number.

As a finale to the afternoon program session will be the memorial service for deceased veterans, those who have passed from the ranks during the past year. President E. M. Fisher will be in charge and an impressive service has been planned.

Eighteen Deceased In Year  
Eighteen members were lost to the vets during this past year, records show. Those to whom respect will be paid on Saturday will be as follows: F. D. Matthews, baggageman, New Castle; Oliver Irwin, passenger conductor, New Castle; Peter Shannon, track foreman, Albion; H. J. Pinekney, carman, Jamestown; (Pinekney was the oldest pensioner in attendance last year.) John McAndrew, engine man, Erie; A. H. Sturdevant, retired clerk, Ashabula; M. D. Hecker, chief clerk, Jamestown station; R. A. Pennington, engine man, Orangeville, O.; C. C. Rawlins, assistant enginehouse foreman, Mahoningtown.

George E. Johnson, passenger conductor, New Castle; H. E. Calaway, car inspector, Ashabula; John W. Brothers, retired engine man, New Castle; W. M. Wallace, retired division freight agent at Youngstown; J. M. Mahan, retired fence foreman, Warren; George W. Powell, retired track man, Volant; F. J. Gillen, carman, Ashabula; Lewis H. Brown, lampman, Ashabula; and A. C. Kyser, retired passenger engine man, New Castle.

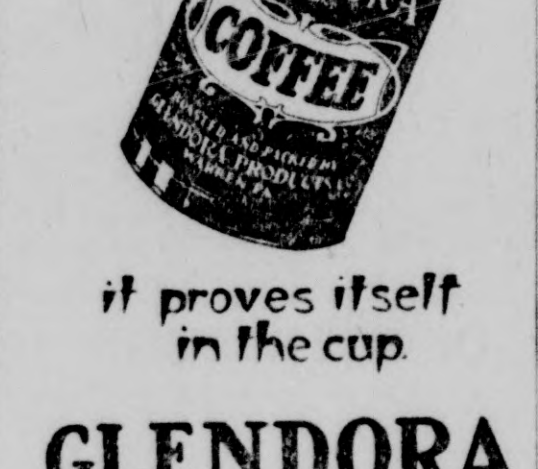

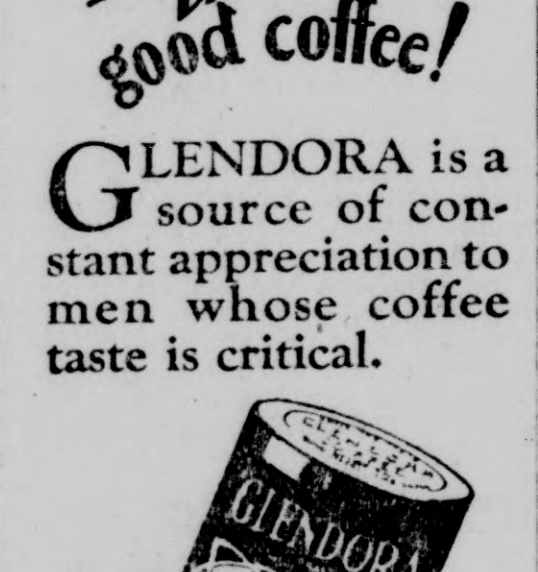

Nears 100 Years  
Patrick P. Walsh, aged 96 years, of Warren, O., is the oldest living member of the organization. While Walsh will not be in attendance the association will signify honor him.

Special train service is being planned to bring the veterans here from Ashabula, Youngstown and other divisional points. A special will be operated out of Ashabula and will return there in the evening. Regular train service will accommodate the veterans who come from other directions.

## RAISE QUESTION AS TO SANITY OF JOHN D. SEEVERS

(Continued From Page One)

tended Seever and that their testimony would be necessary to establish his physical condition. At the time it was impossible, according to the defense, to get the physicians in time to go to trial at the September term of court. The Cleveland physicians were out of the city, and those in other cities could not be located.

It was contended that under the circumstances Seever could not safely go to trial, and the court continued the case until the December term. Since that time a number of physicians and specialists, both of this city and from other places, have examined Seever, and have expressed their opinions to local officials.

Cause of Action.  
Knowing that the defense was to be made on the grounds of insanity, District Attorney J. Elder Bryan decided it was best to take advantage of the mental health act of 1923 and have the matter determined before the case is called for trial.

Muse is holding a consultation with the other members of the commission this afternoon at which they expect to fix a time for hearing. This will probably be on next Wednesday, provided the date is suitable to all concerned.

At this hearing physicians and specialists who have examined Seever, and others who will examine him in the meantime, will give testimony as to their own investigation of the case, the commission will determine upon what kind of a recommendation will be made to the court.

If it should be found that he is insane he will probably be sent to some institution for treatment. If it is found that his mental condition is normal he will be placed on trial for murder at the December term of court.

The company which Mr. Hoover gathered about the big table in the cabinet room at the White House was by long odds the most distinguished. In a business way, that Washington by-words in Wall street and the industrial marts of the country.

Today, however, Mr. Hoover sought something more. He sought the co-operation of the industrial leaders in the maintenance of general business conditions on an even keel until by its own effort it can work itself free from the depressing effect of recent stock market declines.

On his own part, as President, Mr. Hoover assured his visitors that the government believes conditions are basically sound, and to whom he pledged wholehearted government co-operation in the expansion of export, which play such a big part in the piling up of favorable trade balances. And from them he requested the same degree of co-operation that the government is willing to extend.

Specifically Mr. Hoover sought from his conferees assurances that they will not embark on panicky retrenchment policies at this critical time.

Today's Horoscope.  
Persons born on this day are good at keeping secrets but they allow others to flatter them too much.

STAR LORE  
STRANGE MOUNTAIN FORMATIONS  
ON THE MOON  
By Arthur DeV. Carpenter.  
The moon abounds in magnificent mountain scenery. There are not many remarkable mountain ranges upon its surfaces, but there are many

directly or indirectly dependent upon the men gathered in the cabinet room at the White House today for their continued employment. Curtailment of production means the loss of jobs to thousands, and that entails a loss in the country's purchasing power that can be measured in millions.

Occasional curtailment of production is necessary in any successful business, but it is against the curtailment suggested by fear or pessimism as to the general business outlook that Mr. Hoover seeks to guard against. Hence this summoning to Washington today the men who directly control the employment strings of the country.

The President is more concerned about maintaining employment at a high level than with any other single feature of the present situation. The only thing that can disturb the basic strength and soundness of the business structure, in his opinion, is a severe drop in employment figures. Unemployment means breadline and the complete loss of purchasing power.

High Employment  
From the railroads of the country the President already has assurances of continued high employment—even greater employment than now exists. The railroads are going to spend approximately a billion dollars on equipment and expansion during the next year, and that means a substantial increase in employment.

It but remained today for the industrial leaders to give similar assurances in order for Mr. Hoover to hold up to hesitant credit and business a most roseate picture of the national business situation.

In addition to those named above the President's conferees today included Walter Teagle, president of the Standard Oil of New Jersey; Clarence M. Wooley, president of the American Radiator Co.; Eugene Grace, president of the Bethlehem Steel Co.; Pierre DuPont, chairman of DuPont and Co.; William Butterworth, president of the U. S. Chamber of Commerce; E. H. Kulas, president of the Otis Steel Co.; A. W. Robertson of the Westinghouse Electric Co.; Redfield Proctor, president of the New England Council; Ernest T. Trigg, Philadelphia manufacturer; Henry M. Robinson, California banker; Julius Barnes, chairman of the U. S. Chamber of Commerce; and Philip H. Gadsden, president of the Philadelphia Chamber of Commerce.

Following this industrial conference the President will receive this afternoon a group of labor leaders representing many trades and crafts, with whom he will discuss employment.

The labor leaders with whom President Hoover will confer this afternoon were announced today as follows: W. C. Sullivan, president of the American Federation of Labor; Frank Morrison, secretary, A. F. L.; T. A. Rickert, president of the Garment Workers Union; Matthew Wolf, vice president, A. F. L.

John L. Lewis, president of the United Mine Workers; Wm. J. McSorley, Building Trades Dept., A. F. L.; John P. Frey, Metal Trades Dept., A. F. L.; B. M. Jewell, Railway Employees Dept., A. F. L.; A. Johnson, Head of the Brotherhood of Engineers; Timothy Shay, vice president, Brotherhood of Firemen; A. J. Whitney, Brotherhood of Railway trainmen; E. P. Curtis, president, Brotherhood of Railway Conductors.

DONALD GILLESPIE

ship Portia. Details were lacking, a stricken area has been isolated since Monday's earthquake as a result of disrupted communications.

The report from the S. S. Portia said the region was swept by a 15 foot tidal wave which raced in from the sea in a solid wall of water so after the second of the two severe earth shocks were experienced.

The first tremor was felt at 5:00 o'clock Monday afternoon, and was followed by another of equal severity at 7:35 o'clock.

Immense property damage is believed to have been done all along the coast, particularly to fishing vessels which may have been caught by the tidal wave.

## Stubborn Coughs Ended by Recipe, Mixed at Home

Here is the famous old recipe which millions of housewives have found to be the most dependable means of breaking up a stubborn, lingering cough. It takes but a moment to prepare and costs little, but it gives real relief even for those dreaded coughs that follow severe cold epidemics.

From any druggist, get 2½ ounces of Pinex, pour it into a pint bottle and fill the bottle with plain granulated sugar syrup or strained honey. Thus you make a full pint of better remedy than you could buy ready-made for three times the cost. It never spoils and tastes so good that even children like it.

Not only does this simple mixture soothe and heal the inflamed throat membranes with surprising ease, but also it is absorbed into the blood, and acts directly upon the bronchial tubes, thus aiding the whole system in throwing off the cough. It loosens the germladen phlegm and eases chest soreness in a way that is really astonishing.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a refined, palatable form. Nothing known in medicine is more helpful in cases of distressing coughs, chest colds, and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

The hours were spent socially with music and chat. Later dainty refreshments were served and the hostess had as aides Mrs. V. V. Veach and Mrs. L. J. Lewis.

In two weeks Mrs. George A. Patterson, 214 Sumner avenue, will be hostess.

## R. T. Club.

### UNITED EFFORT FOR WATERWAYS

NEW CASTLE has had many meetings at which public questions have been discussed, many which were largely a matter of enthusiastic wind-jamming. But, the session at The Castleton, Tuesday night, when the matter of the need of this great Beaver, Shenango and Mahoning Valley industrial district was discussed, was one of an entirely different calibre.

The men who were at the meeting, represented the great industry and business of the valleys, and were sincere and serious in their discussion. It was the common conception that improvement of the waterways in these valleys to make them navigable for freight service, was the foremost need. And it was determined to go about securing just such an improvement in a systematic manner.

Two congressmen who were present will lead the movement to get recognition in congress for the project, and the cities interested will combine forces to get behind the project and give it the support needed. Every city in any of the three valleys has a vital interest in the proposition, and all will give it their utmost support.

New Castle, along with the other cities stands to benefit mightily when the project develops. It will take time, and it will take a lot of hard work on the part of citizens and organizations here and in the other cities concerned. But there was no mistaking the tenor of the meeting, and the leaders in industry and business in attendance.

New Castle and Lawrence county should stand united behind every effort that is made to put this project across.

It is vital to every one of us; and it is feasible!

### BUSINESS IS SOUND

An orderly slackening in some of the major lines of industry is clearly evident, but it should not be viewed as a result of the collapse in the stock market. The failure of the basic industries to make their seasonal gains is accounted for by the exceptional rate of operations earlier in the year, which ended in overproduction.

Surplus stocks of goods might have found readier markets except that purchasing power was affected by various circumstances, such as uncertain agricultural conditions, the decline in building trades employment and the attraction of rising values in the stock market. In the fact, that it was the engagement of much money in security speculation and the rise rather than the decline in stocks that caused trouble. Had these funds been put into productive enterprise, employment would have been aided and purchasing power sustained.

Despite its retreat, business fully deserves the credit of being sound. Where there is serious trouble it is in lines where there is overcrowding and surplus manufacturing capacity. But every setback in business has witnessed the introduction of products which swung their manufacturers into leading positions. Those producers or distributors are fortunate who have used energy and effort in times of prosperity to look ahead and analyze products and markets for the future. Into new projects the capital now released from speculation may go, with profit not only to its possessors but to the nation at large.

During the tidal wave of security buying industry saw larger profits in speculation than in expansion. Today ways must be found to employ large sums of capital released from speculative activity.

### WAR STAMPS

An American philatelist, who boasts of his Revolutionary ancestry, has spoken out against issues of postage stamps depicting battle scenes of the Revolution. His objections are that they tend to glorify and over-emphasize war, create international ill-will and give the impression abroad that the country issuing them is militaristic. He writes:

"If the battles of the American Revolution were the only subjects which would stimulate patriotism and interest in American history, then there would be some grounds for defending these designs. But when so many vital points in American history have not yet even been hinted at in any postage stamp, isn't it perfectly easy to find better subjects for commemoratives and better topics for commemoration? Why not honor some of our great men and events in science, art, literature, invention and industry? What subjects could better serve to stimulate patriotism than achievements in which no nation has a more glorious history than our own? The true history of any nation is not so much a history of its military accomplishments as of its progress along the upward path of civilization."

Many will agree with him in the foregoing and on the point that "even stamps themselves may help international friendship, unless, perhaps, some nation flings in the face of another a postage stamp depicting a battle in which it was victorious and the other defeated," but the whole argument over the Burgoyne, White Plains and Bennington stamps seems much ado about nothing.

Few people ever notice the stamp designs on their mail, unless attracted momentarily by the novelty of a new issue, and it is doubtful if anyone was ever inspired to patriotic excesses by the mere stimulus of a face or scene on a postage stamp. The menace is not in stamps militaristic in character but in the militaristic state of mind that exalts war and warriors and sees greatness only in them.

The problem of man's descent is to make it an ascent.

Quite An Earthquake.  
Backward Modern Youth.  
Where Is John L?  
Prince And Wall St. Cured.

By ARTHUR G. BRISBANE  
(Copyright, 1929, King Features

The eastern earthquake, reaching from Long Island to Halifax, was not quite "a trifling incident." Trans-Atlantic cables lying on the bottom of the ocean were snapped in two, three out of four French lines made useless, Western Union and Postal cables also suffering, service crippled. Fortunately no earthquake can break the atmosphere, and radio messages will always be available.

Robert Maynard Hutchins, only 30 is head of Chicago university. At 25, he was dean of the Yale law school. In old days, oftener than in our day, great things were done by the very young, Alexander, Napoleon, etc. Young Capt. Nelson, later Admiral and Lord Nelson, when only 25, rebuked by an older officer for youthful presumption, replied: "Sir, I have the honor to be of the same age as the prime minister of England."

The young president of Chicago university might quote that to anybody criticizing his youth. He is six years older than Pitt was, when he became prime minister.

An Italian giant, Primo Carnera, height 6 feet 10, weight 280, having beaten the American, Stribling, in London, will come here and may fight another Italian giant, Vittorio Campolo.

In the featherweight prize fight division, Kid Chocolate, colored gentleman from Cuba, delighted New York's refined civilization Tuesday night by fighting Jose Martinez from Spain. Both speak English.

Where are the American exponents of "the manly sport"? Where is John L., where is Jack Dempsey, McGovern, the terrible Battling Nelson, much puzzled when Jack London described him as "an abysmal brute." Nelson resented the word "abysmal."

England is gratified to hear that the king's second son, the Duke of York, thanks to an Australian specialist, is cured of stuttering, due to a physical difficulty.

The young prince is no longer compelled to refer to his father as the "k-k-k-k-king."

This interests Britishers more than news from Wall Street, which was good, Tuesday, by the way, prices higher, business slow and normal.

For some time it will be a case of indigestion. When an alert prince of high finance capitalizes a few packages of food for three times as many shares of stock as the total issue of United States Steel, casually offering an issue of \$800,000,000 considerable digesting is necessary.

The way to make business better is to create more business.

Secretary Mellon knows, and asks congress to increase appropriation for public buildings from \$175,000,000 to \$423,000,000, to be spent in ten years.

The plans are made, the buildings are needed. Why not proceed now?

The country didn't hesitate a minute when other countries wanted ten thousand million dollars to continue fighting each other. If it could afford that, it can afford something for this country.

Wise men of Princeton learn that our Milky Way is a sort of United States of the Heavens, divided into great "star clouds." Our sun, surrounded by thousands of other suns, lives in one cloud "only" a few thousand light years in diameter. A light year is the distance that light travels in 365 days, going at the rate of 186,000 miles a second.

Our Milky Way is made of many "star clouds," as our country is made of many states. A group of star clouds makes one "universe." Endless other universes are visible beyond our "galactic system."

Our neighbors, another universe is the Coma Virgo galaxy, about 10,000,000 light years away. Add that up.

China and Russia which Wall Street calls "backward nations," are forward, as regards war. Russia, so cripple China's railroad about which there is dispute, bombards the railroad from the air at both ends, that trains may not start or arrive. China fights back with airplanes.

In industrial building Russia is certainly not backward.

When a six years program of building to cost close to seven billions was announced, American "experts" said it would take Russia 15 years to complete it.

Russia will complete the program in three and one half years. Assisted by American engineers and American capital, Russia has outstripped the United States' record in rapid building.

Before boys choose busy streets or railroad yards to play in, it'd be worth while for them to stop and think how much handier two good legs are than one leg and a couple of crutches.

### Hints and Dints

Sun sets tonight 4:40. Sun rises tomorrow 6:52.

When people get so good it hurts 'em it's time for them to leave this earth as they are not happy and no one who is around them can be either.

We heard a chap say he had a plan where less taxes would be paid and more improvements would be had. That fellow ought not to go around poor very long with a plan like that concealed about him.

"AIN'T IT THE TRUTH?"  
The following is taken from "The Town Doctor" which is sponsored by the Lions Club of New Castle and appears in The News every Saturday. You read about "self-made men. There is no such thing. No man ever made himself. Other people did it. The so-called "self-made" man was just smart enough to know that every time he did something for others, others would do more for him—and he did it.

It really does not make any difference to the Hints and Dints Man if a cheer leader became that way either before or after he became a cheer leader.

Bullet proof vests weigh about forty or fifty pounds and that is the reason a lot of birds would rather be shot than carry around that amount of weight.

DANGER AHEAD  
A broker received the following letter from a customer in New Castle, Pa.: "I am short 20 shares of Steel common with your firm. Please Cover it, as I understand they are to seek the names of those who have been selling short and I don't want my name to appear in the newspapers." —Wall Street Journal.

Note—Another nice advertisement for New Castle.

There are always a lot of people floating over the country earning their way as they go and some do it by doing a bit of stealing as they float along.

In just about a month from now the days will begin to get longer and then you will begin to hear talk about daylight saving time again.

SAVED  
It was necessary for taxation purposes to decide on which side of the Canadian and United States border a farm, which an old lady had just purchased, actually lay. Surveyors finally announced that the farm was just on the American side of the border.

The old lady smiled with relief. "I'm so glad to know that," she said. "I've heard that winters in Canada are terribly severe."

Elections are held on Sundays in Mexico. That gives everybody a chance to get his gun and corn cutter out and do a bit of killing, either in the person of some political enemy or candidate for president. Less than fifty people were killed last Sunday at the presidential election. We often wonder how long our U. S. law makers would last in Mexico. They kill them down there at sunset and save a meal by not keeping 'em until sunrise.

THE HIDDEN THREAT  
It is said that a plate over the door in Egypt indicates that a marriageable girl lives within the house. Over here a fellow gets caught without warning.

A deaf old lady went to live near one of the naval ports. Shortly afterwards a battleship fired a salute of ten guns. The old lady, who lived alone, got out of her chair, smoothed down her dress, patted her hair, and said, sweetly: "Come in."

A riot was caused at a bull fight in Mexico because the bull fighter did

not fight hard enough to suit the spectators. A bull fighter either has to fight in Mexico so he will get killed by the bull or the audience will do it. After seeing a few bull fights ourselves we think all the bull fighters ought to be killed and also most of the audience.

PLENTY SYMPTOMS  
The anonymous author of a war diary tells this one. A dusky son of a Southern mammy approached a field hospital doctor with a request that his head be examined. The medic made a careful examination but without results. "What makes you think there's something wrong with your head, Jasper. I find nothing the matter with you."

"There mus' be somethin' wrong with mah head, Doc, or I'd nevah be in this heah wah!"

It has been demonstrated that voting machines eliminate seating at elections. Alleged political leaders who show so much concern about saving the county and country at elec-

tion times—ha, ha—have not raised a hand or voice to find out the sentiment of the voters in Lawrence county in this important matter, even after Lawrence county voted in favor of the machines. Voting machines will not suit everybody, but there is any reason for us not having them in Lawrence county?

A vet. of the Spanish-American War was explaining to a civilian the reason why very few cases of disease were contracted through drinking water in Cuba in 1898.

"Yes, and then?"

"We filtered it."

"And then we always drank beer."

### Hoover's Food Ship Proposal Called Subject For Debate

Humane Purpose In Advocating Freedom To Serve All Nations In Time Of War Is Recognized But Agreement Believed Hard To Obtain

President Hoover's Armistice Day suggestion that all food ships should be placed in the class with hospital ships and enjoy freedom of the seas in time of war is almost universally praised for its humanitarian purpose, but is generally valued for its academic rather than its practical significance.

"It is not to be projected, Mr. Hoover declares, into the forthcoming naval conference," remarks the WASHINGTON EVENING STAR, "but that it will dominate and permeate—not to say aggravate—proceedings at London in January can hardly be doubted." \* \* \* The President is too sagacious a statesman to think that the proposal can speedily eventuate in an agreement to adopt the fighting lines. Furthermore, Modern war has become so largely a contest between men, women and children of contending nations that it might be difficult to limit its effects to the fighting lines. Furthermore, no nation depending on naval power for an assured food supply is likely to sacrifice an adequate fleet until international agreements have survived the test of experience.

Quoting the President's statement that he "does not expect his proposal to be adopted immediately," the ALBANY EVENING NEWS observes that his "extraordinary suggestion" \* \* \* has set the world thinking, and that "it has not fallen on barren ground." The Evening News is convinced that he "has struck a strong blow at war."

"The nations in position to establish blockades," in the opinion of the NEW ORLEANS TIMES-PICAYUNE, "will be reluctant to surrender that weapon, which the misery of war is not only at the front. But back of the lines of besieged and hardly pressed nations, often, has appeared that grim, gaunt and terrible specter, starvation, working its inroads on those who are not only in no manner responsible, but are powerless to help themselves."

"The President seizes the opportunity to start currents of world thought," says the SPOKANE SPOKESMAN-REVIEW, "that may bring about a more humane control of war and a higher regard for the rights of non-belligerents. It is significant that cordial approval comes from Germany; that the British seem to have an open mind; that French official comment is lacking; and that a discordant note comes from Italy." The MEMPHIS COMMERCIAL APPEAL offers the warning: "Realistic in his general attitude, the President here engages in a fight of idealism. When the war drums throb, belligerents are strangely indifferent to starving their foes, as they are to poisoning wells and bombing hospitals and defenseless cities. War is hell and always will be hell."

"It will be a crime to confine war to the combatants and the actual makers and transporters of munitions, even by agreement on paper," in the opinion of the GRAND RAPIDS PRESS, but adds that "Mr. Hoover launches an enterprise enlisting the mind as well as the heart."

The LITTLE ROCK ARKANSAS DEMOCRAT states: "One of the powerful influences for armament races between nations, he said, is the fear that sea-borne supplies will be interrupted. It is significant that he did not 'propose' the plan but merely 'suggested' it."

The FARGO FORUM calls the President's position "astounding for the commander-in-chief of a great army and navy to take," since "blockade of a country, as a means to forcing defeat from within, always has been considered a strategic and necessary thing."

Mr. Hoover believes an international law permitting food ships to sail the seas under the same protection afforded hospital ships will lessen the dangers of war. Certainly it would limit war, and that is important."

"Only a man born with a passion for peace in his breast only one who has seen world war at close hand and staved to mitigate its distress almost within sound of its guns," asserts the CINCINNATI TIMES-STARS, "could have thought and spoken as Herbert Hoover did in his Armistice Day speech. It is a great address, great alike in substance and manner, great also in the disarming sincerity of the man who made it, a sincerity which goes before it like a pillar of fire."

"He does not go into details as to how the military population could be induced to give satisfactory guarantees that the civilian population would have priority rights to such food," suggests the KANSAS CITY JOURNAL-POST while the MANCHESTER UNION argues: "Even if a law were made to let food cargoes pass freely, have not nations usually disregarded such laws in time of war?"

FARMERS AND EDITORS.

President S. H. Thompson of the Federal Farm Bureau, largest organization of farmers in America, said recently to a Chicago reporter:

"If something isn't done for the farmers he'll soon be in the condition of the Alaska editor."

"This editor," Mr. Thompson went on with a grim smile "wrote in his paper one day:

"To be reported that a fastidious girl bride in Boston kneads bread with her gloves on. The incident may be odd, but there are others. Thus the editor of this paper needs bread with his shirt on; he needs bread with his pants on; and unless some of his delinquent subscribers pay up mighty quick, he'll need bread without a darn thing on; and Alaska is no garden of Eden in the winter time, neither."

## Three Have Travelled Over Million Miles On Local Street Cars

Would the average newspaper reader like to ride 1,144,640 miles on a street car?

Answer the question yourself for here are a few statistics gathered today from Penn-Ohio railway company files.

There are three street car men who have been collecting fares and operating cars for 32 years.

Each of the men have during their employment covered aboard a street car an average of 98 miles a day, according to company attaches.

Figuring it on this basis they ride 35,770 miles a year or during the past 32 years have gone 1,144,640.

The men are Earl Cook, L. C. Huston and W. F. Shippe. Cook is the eldest in service.

They began "street railroading" here 32 years ago, or in 1897.

C. J. Garwig and Bert Pete have served 31 years and Clark Patterson and T. D. Allen are 30-year-old men in point of service.

Cook is on the Croton-West Side "run" and Huston and Shippe work on the Highland line.

Makes You Feel Like Yourself Again

© S.S.S. Co.

It is easy to abuse our golden life-given body, but Nature has a way of signaling danger. If heeded, greater troubles may be avoided. That tired, exhausted feeling, lack of appetite, aches and pains, flabby flesh, skin troubles—all speak of a body weakness—a lack of the normal count of red-blood-cells.

Every normal person's blood should contain about 5,000,000 red corpuscles to the cubic millimeter—those vitalizing, tiny red-cells which give blood its color and are carriers of nourishment to every part of the body. It is dangerous to let the red blood count remain below normal.

With an increase in the red-blood-cells, you will be on the right road to health. This is Nature's way to body power and to clear skin. Naturally, with your strength restored, it is easier to fight disease and infection; to enjoy your food and to sleep soundly. When firm flesh takes the place of that which was once flabby, you will feel strong—your nerves will become steady—more happiness and friends will follow.

S.S.S. has been a blessing to millions of people. It helps Nature increase the red-blood cells. It promotes healthy body building. It is time-tested and has a successful record of over 100 years back of it.

You owe it to yourself to try S.S.S. It is easily assimilated. Pleasant to take. It is on sale at all drug stores in two sizes. Ask for the larger size. It is more economical.

## How Daily Dose of Kruschen Makes You Lose Unhealthy Fat

Yet Gives You Splendid Health and Added Energy

It sounds easy, doesn't it?—well, it is the easiest, the safest and surest way to lose fat you could possibly desire!

**KRUSCHEN SALTS**—a perfect combination of the six mineral salts your body must have every day to function properly—purify your blood of harmful acids, aid the kidneys and bowels to throw off waste material (the continual formation of which is probably the cause of your fat). They are carried by your blood stream to give stimulus, life and new activity to every nerve, gland and body organ.

In this modern age of living, it's impossible to get these salts from the

## Camel has the quality that smokers depend upon

It is all right to experiment but a pity to spend too much time experimenting when you might be enjoying the fragrant pleasure of smoking Camels.

It has been the experience of many smokers, after trying other brands, that Camels give constant and unfailing pleasure. Their mildness, due to choice tobaccos and expert blending, makes it possible to smoke them liberally without any tiring of the taste. This quality, which smokers have learned to depend upon, will be maintained, because Camels are made for those who know and appreciate the real pleasure of smoking.

# Why the world awards STUDEBAKER EIGHTS first place

Eleven world records for speed and endurance—and more American stock car records than all other makes combined—are held by Studebaker Eights.

This year's Penrose Trophy Race to the summit of Pikes Peak was won in record time by a Studebaker President Eight—over a tortuous twisting roadway involving 154 breath-taking curves.

The greatest record in the history of transportation—established over a year ago by Studebaker's President Eight that traveled 30,000 miles in 26,326 consecutive minutes—still stands unchallenged. And this time-tried championship stamina is built into every Studebaker Eight—President, Commander or Dictator.

Studebaker is the world's largest builder of Eights because Studebaker Eights are brilliant and thrifty beyond anything motordom has known. Drive one of the new Studebaker Eights before committing yourself to any new car—Six or Eight. Profit from Studebaker's championship successes and from the 77 years of manufacturing integrity that stand firmly behind the Studebaker name.

#### Answer to Previous Puzzle

**PETER EATS DIRT**  
Peter had been about to haul himself out of the hole by the help of the stone, but at the little creature's words he halted.

"I'll be very careful not to put more strain upon the stone than I have to," said he. "Really, little comrade, this is a ridiculous position to be in. You can't move unless I do. I can't move unless I can find something to bear my weight as I cling to it. There we are. The only thing to do is to take a chance. Heave! Ho! Here I go."

With great effort Peter hauled himself to his knees, then to his horror, felt the stone giving away. The earth was loosening around it. "Watch out, below. The stone is slipping down. Save yourself. Wiggle out from beneath me. I will hold up the stone as long as I can. But for goodness sake make your escape quickly. This thing's no light weight, I can tell you!"

Peter spoke not a moment too soon. The little fellow squirmed nimbly from beneath the boy and climbed out the side of the hole too safely. Just as the little fellow's feet disappeared, Peter felt the stone sliding. Suddenly Peter thought the whole earth was opening to swallow him up. Down dirt poured into his eyes, his ears, his mouth. For awhile he knew nothing. When he came to, little claws, very gentle now, were patting him. He felt drops of cold water trickling down his nose. The first person he saw was Lady-Bird, anxiously bending over him and sponging his head with a wet leaf. Peter smiled up at his old friend and in a faint voice asked: "Where am I? How did you get here?"

### Watch Tongue For Signs of Illness

Your tongue is nothing more than the upper end of your stomach and intestines. It is the first thing your doctor looks at. It tells at a glance the condition of your digestive system—and physicians say that 90 per cent of all sicknesses start with stomach and bowel trouble.

A white or yellowish coating on your tongue is a danger signal of those digestive disorders. It tells you why the least exertion tires you out; why you have pains in the bowels, gas, sour stomach, dizzy spells.

And it's a sign you need Tanlac. This good old reliable medicine has helped thousands who were physical wrecks. See how the first bottle helps you.

Tanlac contains no mineral drugs; it is made of barks, herbs and roots—nature's own medicines for the sick. Get a bottle from your druggist today. Your money back if it doesn't help you.

**"WIGGLE OUT FROM BENEATH ME"**  
Lady-Bird clapped her claws at the sound of his voice.

"Hurrah. You're coming to at last. How glad I am. Never should I have forgiven myself if anything had happened to you. I missed you on the hunt, flew back to look for you, found your cap on the gravel path but no sign of you. I was scared out of my senses. I flew toward the brook, and the moment I saw the Gun Beetles acting so strangely and heard their guns going off, I knew something was wrong in the Gun Beetle family."

Next: "The Gun Beetle Tribe."

### Bus Lines Use Most Every Road Entering City

With the completion of more improved highways into New Castle has come a continual increase in the number of bus lines operating from the public square.

In addition to the through lines connecting with New York and San Francisco, and the lines to Pittsburgh and Cleveland, practically every improved highway out of the city has its bus line.

The only road that is not in use at the present time for bus lines is that to Volant, and it is probable that about as soon as this route is open for traffic that one will be operating over it.

The bus lines are now cooperating in the matter of schedule so that transfers can be made in New Castle from one line to another without delay.

In addition to the eight or ten passenger bus lines, there are also a number of bus freight lines in operation.

## Police Station Printer-Telegraph Machines Arrive

New Telegraph System Will  
Soon Connect New Castle  
To Harrisburg

Electric automatic telegraph machines to be installed throughout the state in important police centers and connected with various state police headquarters for the purpose of improving the facilities of both the state and local police in the apprehension of criminals, have arrived at the local office of the Bell Telephone company.

They are being assembled there and being put in first class running order, before the one for the police station here, is taken to the police department for actual installation. There are two of the machines, one for the local office and one for installation in the sergeant's office at the police station.

George Nickum, city electrician, is making the necessary changes to the wiring in the city police station in order that the machine may be installed there.

Chief of Police C. C. Horner stated today that he had had no official notice as to the arrival of the machine or its time of installation.

It is understood that the machine will be installed in the police station next week, after it has been thoroughly tested out.

### AUTOMOBILE STOLEN

**FROM LOCAL GARAGE**  
Andrew Hallowich of 1820 East Washington street reported to the police today that on Wednesday evening he placed his Whippet sedan, 1929 model, Pennsylvania license D24-278, in his garage and that during the night the lock of the garage was broken off and the machine stolen. The stolen car was green in color.

The Lincoln Memorial in West Potomac Park, Washington D. C. was designed May 30, 1922. It cost \$3,000,000.

## One Day Drive For Community Chest Under Way

Service Clubs Will Aid Agencies In Final Campaign  
For Funds Starting Today

In a final effort to put across the Community Chest campaign which has been under way since the middle of October, a determined group of men, representing the Rotary, Kiwanis and Lions clubs, met in the Y. M. C. A. at noon today to start a 24-hour drive which will end tomorrow noon.

The lists of the Community Chest is being combed for prospects by these workers. Those who have refused to contribute will be seen again. Those who it is felt have not given enough will be seen, in addition to some few who have escaped the attention of the workers in the campaign heretofore.

A total of \$162 was reported by the workers today, which added to the sum reported Tuesday at noon, makes a grand total of \$94,174. Thus, it will be seen, \$5,000 is still needed to reach the goal set by the directors of the Community Chest as the objective to be attained this year.

W. F. Moody explained the purpose of the final campaign to the workers, stressing the fact that the expenses of the drive this year have not exceeded \$100, a saving of close to \$5,000 which had been paid in previous years to outside organizations.

He stated that the fund here would approximate \$125 per capita, where other surrounding cities are asking as high as \$3 and \$4 per capita.

## Senate Resents Criticism For Tariff Actions

Angered Senate Today Scatters Broadside Of Attacks Upon Critics

(International News Service)  
WASHINGTON, Nov. 21.—Angered by criticism of its attitude toward the tariff, the Senate rose in revolt today and scattered a broadside of smashing attacks upon its critics.

President Hoover was charged with entertaining a "few newspaper satellites," who afterwards, basking under White House social favors, wrote propaganda stories assailing the Senate and praising the President. Senator Harrison (D) of Mississippi, made the charge and declared he might name the correspondents so favored by the President.

An editorial in the Washington Post bitterly condemning the Senate was also flayed and Senator Norris (R) of Nebraska, savagely attacked its publisher, Edward B. McClean, charging McClean with "shielding a thief and a liar" in the famous Teapot Dome oil case.

"Every condemnation that comes from his lips," said Norris, "only adds to the honor and reputation of the body he assails."

## Wife Causes Husband's Arrest At Midnight

About midnight Wednesday Mrs. Mike Salek of Moravia street extension aroused Alderman J. Lee Cooper and made an information against her husband charging him with assault and battery and surety of the peace. Constable Michael Fazzone went out and arrested Salek and placed him in the county jail where he is being held pending a hearing Friday morning at 10 a. m.

## Cascarets is Good for the System

What do you do when a sluggish system tells you the bowels need a little help?

The best thing yet discovered for the purpose is still the little candy Cascarets! Take one whenever the liver and bowels are not functioning as they should.

Cascarets are pleasing to the palate, and pleasant in their action. You eat them just like candy. They work while you sleep. Gentle, but thorough. Cascarets don't stir-up the stomach or upset the system. But they cleanse the entire thirty feet of bowels in one comfortable, thorough action that leaves the system clean and sweet; leaves you

with an untainted breath, uncoated tongue, and clear head.

Cascarets are made of cascara—long regarded one of the most beneficial laxatives known to medical science. They are sweetened with pure cane sugar and flavored with real licorice. Children love them. So do most grown-ups! Why take anything harsh when constipation threatens? Whenever a dull headache, lassitude, or sick stomach with loss of appetite warns you of poor elimination, a Cascarets or two is the most harmless form of help you could give a lagging system.

Take a candy Cascarets tonight and see how fine you'll feel in the morning—and for days after.

## Industrialists Pledge Support At Washington

President Hoover Gets Enthusiastic Cooperation Of Great Leaders Of Industry

FORD FAVORS HIGHER WAGES

(International News Service)  
WASHINGTON, Nov. 21.—American trade and industry, represented by a score of such leaders in their respective fields as Henry Ford, Julius Rosenwald, Myron C. Taylor, Pierre DuPont, and Owen D. Young, pledged President Hoover their cooperation today in the governmental effort to keep business on a steady keel through the period of uncertainty brought on by radical declines on the stock market.

Long past the luncheon hour, the president sat with a score of the country's leading industrialists, merchants, bankers and utilities magnates discussing present-day conditions and the outlook for the future.

The session was held in the cabinet room at the White House, and began at 10 o'clock. At 1 o'clock they were still at it, but word was sent out there would be a joint statement issued on behalf of the president and his guests at 2 p. m.

Meanwhile, Henry Ford issued a statement declaring that while the stock market declines may have contributed to a feeling of business uncertainty at this time, the stock market was not primarily responsible for present conditions.

What the country needs, Ford said, is cheaper prices for products and higher wages for workers, to the end that the purchasing power of the public should be increased.

THE LINCOLN

Its age is  
a private matter

It is very difficult to discover, by its appearance, how old a Lincoln is. Lincoln believes in making automobiles so beautiful that they are always modern—so durable that they simply won't wear out. The age of a Lincoln is no one's concern—least of all its owner's. On the boulevard a Lincoln of last season and the newest model share honors equally with Lincolns years older than either.

So fine is this car that a year or so of use does not perceptibly detract from any of its splendid qualities. Lincoln owners are often men who can, and do, provide the best professional care for their cars. Sometimes such well-kept cars are available at very attractive prices from Lincoln dealers. The wisdom of investing in such a motor car is quite evident, and shrewd buyers are quick to take advantage of the opportunity.

A few such Lincolns are now to be seen on our floor. Every one is in perfect mechanical condition. We are always glad to demonstrate them to you, without the slightest obligation. Drop in today.

## Early Trial For Judge, Fifteen Others Planned

Judge John A. Berkey, Somerset County And Fifteen Others Held For Violations

### BLAMES "SOREHEADS" FOR INDICTMENTS

PITTSBURGH, Nov. 21.—An early trial is looked for in the case of John A. Berkey, presiding judge of Somerset county, who with 15 others was indicted yesterday by the federal grand jury here, charged with transporting, possessing and selling intoxicating liquors.

The true bill returned by the jury charges that Berkey directed Claude A. M. Welsh, an official of the West View Publishing company, which publishes the Public View, to solicit and collect contributions from those engaged in the liquor business in Somerset county.

Ed Darr, county detective; Emmett Bruckman, assistant county detective; Harry S. Sellers, a constable, and Victor Gleason, a deputy constable, are named in the indictment which includes among the overt acts cited that at a conference held on or about March 1, 1928, Judge Berkey, Welsh and Foster Zeisler met in the office of the judge and agreed that Zeisler should sell liquor in Somerset county with promise and guarantee of protection from county officers.

Will Surrender Self.  
Judge Berkey is expected to surrender to government authorities today.

He has expressed the hope "that the public will reserve its judgment until I have been heard," in blaming the whole business on "political soreheads." His term as judge will expire next January, after nine years on the bench. The fact that there are but two months of his term left is cited as additional cause for early disposition of the case in order that if innocent he may be cleared of charges before he leaves his office.

Other persons named in the indictment included Ed Sheeler, John Griffith, John Sherman, John Clark, Peter Hanlon, John Gress, William Dittman, John E. Custer, J. C. Tucker and James McIntyre, all of Somerset.

Three days were required for all of the government witnesses to be heard in presenting the case to the grand jury. The action followed several months work on the part of special investigators working under the direction of John D. Pennington, prohibition administrator in this district. Attorneys Leslie E. Salter and John P. Coldiron, special assistants to the attorney general, were sent here to handle the prosecution of the case at the request for special aid made by Louis A. Graham, newly appointed United States district attorney.

Warrants for the arrest of Judge Berkey and the others indicted were issued to the United States marshal. Among those indicted are several persons who are accused of being in the "gambling and slot machine racket," who have contributed, it is alleged for their protection.

News of the indictment of the Somerset county jurist startled the whole of western and central Pennsylvania.

## Booster Club Meets Tonight

Waterways Improvements Will Be Discussed At Meeting In Council Chambers

Members of the New Castle Booster Club will discuss the question of waterways improvements at their meeting in the city council chambers this evening, when Col. J. F. Leaf of Rochester will be the principal speaker.

Col. Leaf was one of the speakers at the meeting held Tuesday evening in the Castle when plans were laid to form a permanent organization of business and industrial leaders in the Mahoning and Shenango valleys, to work for improvement of the rivers of the district.

Mr. Leaf has been interested in improvement of the waterways of the district for many years, and knows the history of developments which have already taken place, along with prospects for the future.

He will be accompanied by several other boosters of the project from the Beaver Valley who will speak on the matter.

It is expected that the Booster Club will give their endorsement to the proposal at the meeting, which will be open to the public, and will enable citizens here to learn what is proposed from those who are in close touch with the situation.

## Clemenceau In Serious State

Former French Premier Suffers Attack In Abdominal Region; Doctors Alarmed

(International News Service)  
PARIS, Nov. 21.—M. Georges Clemenceau, veteran French statesman and wartime premier, was in a critical condition again today following an attack of an abdominal ailment.

The "Tiger" has been ailing for many weeks and several times his physicians have despaired of saving his life.

Heretofore, however, he has suffered from ailments of the heart and lungs, and the attack in the abdominal region was considered by his physician, Dr. Degennes, as a serious complication.

Former Local Man Writes Fine Play  
Harold Igo, former New Castle newspaperman and Westminster

graduate, has turned to playwriting. Friday evening at the Fox theater at Hempstead, L. I., "Jingo," a three-act comedy of the post-war activities of America and France, will be presented. Igo wrote the play a year ago as a member of the class of Professor George Baker of Yale University of Drama.

It is said that the production has gained much favorable comment and that it may reach Broadway by the middle of January. The play is being produced by L. C. McCollum.

## Old Dinkey Track Will Be Removed

Church On Butler Avenue Site Will Eliminate Remainder Of Early Days Here

March of progress is eliminating reminders of another of the early efforts in industry here.

At East Washington street and Butler avenue, where the work on erection of the new Epworth M. E. church is in progress, the old dinkey track will be removed from the site.

Although the dinkey track has not been used for many years, it has never been removed from the right of way. It was a narrow gauge line that was used to haul limestone from the quarries in the Butler avenue region to the mill district. Gravity would take the cars down, and an engine haul them back up to the quarries.

## Democrats Fight For Ex-Soldiers In Appointments

Allege Administration Fails To Comply With Spirit Of Law In Appointments

### HOOVER POSTMASTER FAILS APPROVAL

(International News Service) WASHINGTON, Nov. 21.—Senatorial Democrats today prepared to start a vigorous fight upon the alleged failure of the administration to comply with the spirit of the law directing ex-service men be given preference in government appointments.

Senator Black (D) of Alabama announced he would protest every appointment where there appears to be a violation of the preferential rights of ex-soldiers.

The senate yesterday rejected the nomination of Albert C. Gruwell to be postmaster at Dillon, Mont. He was appointed by President Hoover to succeed an ex-service man who had a 20 point better record in the postal examinations.

The policy of the administration, according to Senator Swanson (D)

of Virginia, is to add five points to an ex-service man's grade on postal and other examinations.

This, he maintains, is a flagrant violation of the statute, which directs that they shall be given preference. The five-point advantage is nullified whenever it conflicts with the will of Republican political leaders in making appointments, he asserted.

The same policy, according to Senator Barkley (D) of Kentucky is pursued in the appointment of census enumerators.

## Operetta Being Presented Today

"Once In A Blue Moon" Being Put On Today At Franklin Auditorium By High School Students

This afternoon at the Benjamin Franklin junior high school auditorium, "Once in a Blue Moon", an operetta in three acts is being presented by the members of the voice department of the senior high school to the students of the high school, as well as those from other institutions. The operetta is under the personal direction of Miss Isabel Zehner. The musical romance will be repeated on Friday evening in the Franklin auditorium at 8:15.

The first dress rehearsal was held last night and if rehearsals mean anything, then the operetta is going to appeal to the students of the different schools. Miss Myrabeth May and Harry Powell are taking the leading parts.

## Troubled For Three Years With Pimples. Healed by Cuticura.

"My trouble was pimples. They were large and red and were scattered all over my face, which was a sight to look at. The pimples burned and were very itchy, and troubled me for three years. A friend recommended Cuticura Soap and Ointment so I purchased some, and after using three cakes of Cuticura Soap and three boxes of Cuticura Ointment I was completely healed." ## Vets Post Plans Insurance Fund

Officers Named To Handle Arrangements; Plans Rehearsals For Drum Corps

Arrangements were completed at the meeting of the Harry L. McBride Post, Veterans of Foreign Wars, for the inauguration of an insurance benefit fund for members of the post, at their meeting in the post rooms in the Legion Home Association Building, last evening.

Trustees were named to make arrangements to handle the funds, which will provide a small burial fund at the death of the veteran. Instruments for the bugle and drum corps, which were ordered purchased at the last meeting of the post have arrived and rehearsals will be started at once. Practices will be held each Wednesday evening by the members of the corps.

Arrangements were made for the annual election of officers, which will take place during December. Nominations will take place on Wednesday evening, December 4th, followed by the annual election on December 18th. Major Guy Wadlinger will serve the members of the post with a sauer kraut supper on the night of the election.

## Temple Israel Services Friday

How and when did Abraham, the founder of the Race exhibit this admirable quality? To what degree may the Jews as a people claim to have been possessed thereof during the past? Are we of today imbued with the same spirit? If not where may the remedy be found?—These questions will be discussed by Rabbi Menkes at the Regular Friday evening services at Temple Israel tomorrow evening at 8:00 o'clock. After the services there will be a social hour with Mrs. Joseph Ehrlich and Mrs. Norman Ehrlich acting as hostesses. Saturday morning services at 10:30 a. m. The pulpit flowers will be furnished by Mr. and Mrs. Maurice Schoenberger in honor of their newly born son Richard Harvey.

## RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause." But immediate relief has been found. A tablet called Rexall Orderlies attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough movement without forming a habit or ever increasing the dose. Stop suffering from constipation. Chew a Rexall Orderly at night. Next day bright. Get 24 for 25c today. Go to the nearest Rexall Drug Store, Paisley's Pharmacy, Washington St. and Croton Avenue.

## 1,000 Deer Hunters In Mercer County

Great Number Will Take Field First Of December, County Treasurer Reports

MERCER, Pa., Nov. 21.—An estimated number of 1,000 hunters will leave Mercer county December 1st to hunt deer in the counties of northern and central Pennsylvania, reports County Treasurer G. R. McQuiston, who is included in this total. Elk, Clearfield, Clinton, Warren, Forrest are all included in the list that will be visited by Mercer county men.

The law provides for the shooting of one buck per hunter for the season. Many of the local men expect to be back with their animal the day following the opening of the season. Deer may legally be shot from December 1st to December 15th.

FOUR SEEK JOB Four candidates have filed with the auditor general of the state for the appointment of mercantile appraiser of Mercer county.

It is reported that they are from four county towns scattered over the county. As yet no appointment has been made. It is expected that the county official will be named soon so that work may start the first of the year.

WILL BE SERVED CHICKEN Chicken dinner will be served at the poor farm on Thanksgiving to 300 patients and attendants, is announced today by the officials there. There will be a preaching service at the home at three p. m. on that date. The chicken dinner is the customary meal at the home on this date. Everything that can be done to make the day a bright spot in the lives of the home folks will be done.

COMPLETE ADDITION Dr. D. E. Vogan announces the near completion of a \$20,000 addition at the nurses home at the Mercer hospital. When finished it will make possible the housing of 25 nurses and students at the hospital.

There are 10 student nurses now. The number will be increased 15 when the addition is completed. This number of students are desirous of taking their training here.

The doctor reports 33 employees, nurses at the hospital now. Since taking over the hospital from the state five years ago the owner had added \$100,000 in equipment and new buildings.

TAX LAW CHANGED County Treasurer G. R. McQuiston calls attention to a change in state tax laws that is of the most important character. The law has been revised to provide for a penalty of one per cent each month on unpaid tax on January 1st of each year instead of the old act. That would mean that any 1929 tax unpaid on January 15,

Workmen of today are not forced to battle the elements like they were years ago.

Recently, during a rainstorm, it was noted that the employees of the Bell Telephone company working on north hill cable lines in the conduit were well protected.

Over the top of the manhole in the conduit where they were working was a canvas tent, while alongside the manhole a gasoline engine and pump were working steadily keeping the water pumped out of the manhole. The engine and pump were even on wheels, making them easy to transport from place to place.

## Varicose Veins Can Now Be Safely Reduced In Your Home

Why is it people are always so repulsed by unsightly Varicose Veins? Maybe it's because a physical defect is always offending and you'll have to admit there's nothing more distressing than to see a beautiful woman with shapely legs disfigured with thick, bulging veins and bunches!

But it's her own fault because the swift and effective way in which Moore's Emerald Oil has been stopping the pain of Varicose Veins and reducing the ugliest and most swollen veins to normal again—right in your own home, without the slightest inconvenience—is nothing short of magical.

Get a 2 ounce bottle of Emerald Oil this very day at New Castle Drug Co., McKee's Kut Rate Store, Eckerd's of New Castle, Inc., or your drugstore—you'll soon be able to wear the thinnest stockings, fashionably short skirts, a chic bathing suit without having anyone criticize your ugly veined legs!

A lady from Ogden writes:—"I had Varicose Veins so bad I couldn't even walk in comfort. The doctor said I had to be operated on, but I read about Emerald Oil and tried it and in 3 days time it fixed me up—no more bottle did the work."

the second week of revival services at  
Gardner chapel and his sister Mrs.  
Foreman leads the singing. Mr. and

Mrs. Harry Hettenbaugh attend every  
night and assist in every way possi-  
ble. They and Mr. Wolford of Butler  
county were guests of friends at  
Gardner last Sunday. Mr. Wolford is  
blind as he lost his sight in an ac-  
cident in a mine.

Attorney C. W. Fenton and Mrs.  
Fenton of the Ellwood City road re-  
turned home last Saturday from a de-  
lightful trip. They visited many  
points of interest and saw many  
things worthy of note on their long  
journey to the southern point of the  
Rio Grande valley where they crossed  
the river and traveled in old Mexico.

Last Saturday Mr. and Mrs. A. H.  
Robb of Gardner entertained their  
parents and brother Mr. and Mrs. F.

Mr. and Mrs. Philip Moore and  
children of Gardner were guests last  
Sunday of Mr. and Mrs. John Bay-  
ham of New Castle.

Little David Robinson of Gardner  
is now at home from the hospital and  
is able to be about the house.

David Jenkins of New Castle will

be the speaker next Sunday night at  
the East New Castle mission. There  
will also be special music.

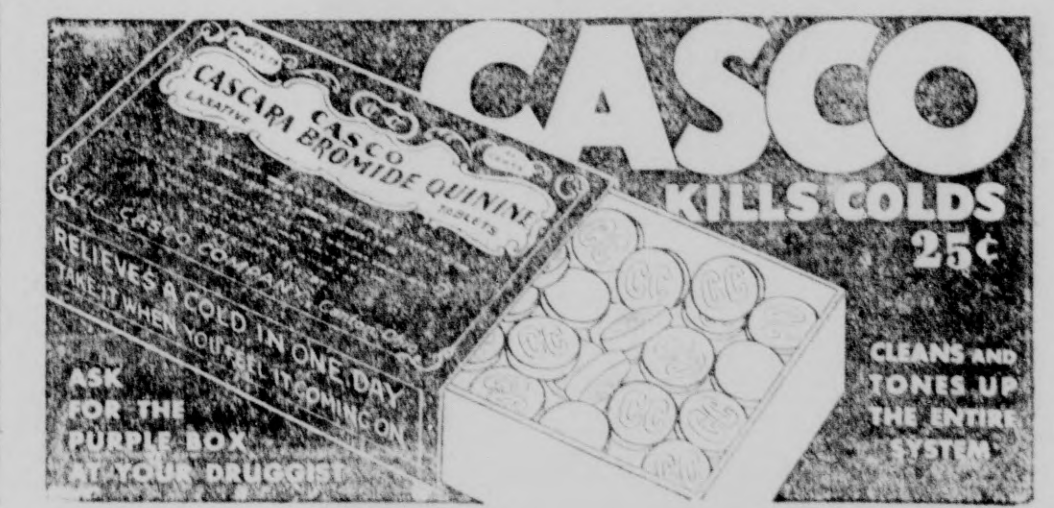

## Beaver Man Dies In Coughing Fit

BEAVER, Pa., Nov. 21.—Seized with  
a fit of coughing while eating soup at  
his home in Vanport, John Hoffman,  
65, died before medical aid could be

summoned. It was reported Hoff-  
man had been drinking with two  
companions just before his death oc-  
curred. Coroner Harry C. McCarter  
gave a certificate of death from acute  
alcoholism.

Hoffman who was employed as a  
gardener is said to have been a mem-  
ber of a prominent Pittsburgh fam-  
ily. Chief of Police Harry Anderson

# Wife Of Biologist Is Seeking Divorce

Woman Contends Her Biologist Husband Subjects Her To Rather Inhuman Treatment

Keeps Too Many Animals Around House; Uses Wife As Means Of Specimen Of Tests

(International News Service) WASHINGTON, Nov. 21.—Mrs. Signe G. Bartsch has an application on file in superior court today for a limited divorce because she says her husband treats her as a biological specimen.

The husband, Dr. Paul Bartsch, is professor of biology at George Washington university, a biologist at the National Museum and professor of biology at Howard university.

And another fault Mrs. Bartsch finds with her professor-husband is his insistence on keeping live birds and animals in the house, making their home offensive and sometimes unbearable and filthy.

The couple was married June 21, 1902, and separated No. 10 last when her husband, after locking her out, she said, opened the door and "growled and snarled" at her.

Treated As Specimen.

The wife declared in her petition "the defendant insists on all occasions in the home relations and in the domestic relations of parties hereto described as husband and wife on treating plaintiff as a biological specimen and insists that her eating and

sleeping and her relations with him shall be on a basis of a biological specimen."

Her complaint also asserted Dr. Bartsch has beaten and dragged her about and has utilized young girls associated with him in his work as "biological specimens, making applications of same to himself and to them."

She said his girl employees do not stay with him here and some of them told her complaints stated, "about his suggestions of biology as applying to relations between certain of them and him."

The alleged assertions of the girls the wife said, "are along the line of suggestions of similar kind he has made to her in seeking to have their relations determined and controlled from a biological standpoint."

## B. P. W. Guests At Baptist Church

"A man may be thoroughly sincere and yet dead wrong," said Evangelist W. W. Ayer last night at the First Baptist church. "Many falsely believe," he continued, "that it does not matter what a person believes religiously, so long as that person is sincere in his belief." "Paul of Tarsus was sincere when he was persecuting the church, but he was sincerely wrong," "The heathen mother who throws her babe to the crocodiles is sincere, but she is dead wrong and her sincerity does not justify her deed."

The prize for bringing the largest number to the meeting was a tin between Mr. B. F. Johnson and Mr. W. C. Sterling, each receiving a book for their efforts. Special music in

cluded a solo by Miss Elizabeth Williams and a choral number by the choir. Tonight the business and professional women will be special guests, and a prize will be given to the business or professional woman who brings the largest number of her associates. Mr. Ayer will preach on "Short Beds and Narrow Covers."

## Strikes Pole In Avoiding Gates

Francis Ryder of 502 Pearson street reported to the police Wednesday that he was driving east on Washington street at the P. & L. E. crossing when the gate man let down the guard gates in front of his car in a sudden and unexpected manner.

This caused Mr. Ryder to swerve his car into a telephone pole in avoiding hitting the gates. His machine was somewhat damaged and he was also injured himself.

T. B. Young of 334 Franklin avenue reported Wednesday that he was driving his motorcycle south on Lafayette street, when it was in a collision with an automobile bearing Pennsylvania license 343-980 going in the same direction. The motorcycle was damaged to some extent.

## Epworth League Plans Activities

The Epworth League of the First Methodist church will begin a definite program of events Saturday evening, November 23, when they will serve an oyster supper.

The league is planning to send delegates to the Epworth League training conference at Meadville, Pa., next summer. This conference is held for the purpose of training young people in Bible, mission and methods of leadership, giving them ideas and inspiration for promoting their societies during the following year.

The leaders of the First Methodist league have planned a great many things, both spiritual and social, for this winter and the money earned will go toward the expenses of the delegates, and it is hoped that the enthusiasm and support of the members will make all the winter's activities successful.

Kind words are never wasted. The happiest people in the world are those most easily flattered.

## Wrist Watches Not For Big Policemen, Jersey Chief Says

Safety Director At Jersey City Hates To See Cops Wearing Wrist Watches

(International News Service) JERSEY CITY, Nov. 21.—Jersey City policemen wearing wrist watches ran the danger today of being considered effeminate by their chief, Director of Safety John Beggans.

Beggans dislike for this type of timepiece came to light yesterday when a patrolman explained his absence from duty by saying he was hunting for his misplaced wrist watch.

"I don't like to see cops wearing wrist watches," the safety director declared. "I wish they would give them back to their sisters."

## PULASKI

The regular meeting of Pulaski Review No. 201, Women's Benefit Association, was held on Tuesday evening with the president, Mrs. Charles Garrett, presiding. Mr. and Mrs. Charles Simpson returned to Beaver after spending the week-end at their home here.

## Hundreds Continue Visit To Grave In Search Of "Cures"

Nipping Cold Weather Fails To Keep Crowd Away From Grave Of Patrick Power

(International News Service) MALDEN, Mass., Nov. 21.—With the unrestricted "visiting hours" at the shrine-grave of the Rev. Patrick Power ending Saturday night, another huge crowd of pilgrims seeking succor from their bodily ills was expected to throng into the Holy Cross cemetery here today.

In spite of nipping weather, the crippled, the paralyzed and the blind continued their procession past the grave of the priest, dead more than sixty years, in the hope of a miraculous cure.

Unable to cope with the ever-growing crowds, cemetery officials have ordered that starting next week, only certain days and certain hours shall be set aside for visitors to the shrine.

## Girl Whose Jaw Is Locked Four Years On Way To Recovery

GREENSBURG, Pa., Nov. 21.—Genevieve Crissinger, 25, whose jaws became locked four years ago as the result of a nervous collapse, was today able to move them easily and her complete recovery was expected.

Six weeks ago Miss Crissinger became seriously ill again and the illness reached a climax a few days ago. She experienced severe pain and then suddenly the jaws unlocked from the rigid position in which they had remained for more than four years.

## Aged Man Crushed Under Auto Wheels

AMBRIDGE, Pa., Nov. 21.—Crushed between the wheels of a rapidly moving automobile Edward C. Gosnell 76, Washington street, Leesdale was critically injured.

He suffered a fractured leg, the break running into the joint of the knee; four broken ribs a broken collar bone and severe bruises about the head, face and body. Due to the serious nature of his injuries and his advanced age little hope is held for recovery by attending physicians.

Gosnell was struck by an automobile driven by Owen Keiley, 326 Harbaugh street, Sewickley.

Pending the outcome of the injuries suffered by the aged man, Kelley is at liberty under \$500 bond.

## Genius Helps City Coppers

Since the police headquarters underwent its complete renovation a number of months ago, there has been a ban against anything that in any way mar the nicely papered walls. In fact there has been no place provided for the officers to hang up their coats while on duty in the office, and this has proven sort of a handicap.

However it has been overcome through the efforts of two of the members of the force, who know how to do things. Officers Dukes and Hamill have made a special movable rack of iron pipe on which the men on duty in the office may now hang their coats on regular hangers. This was completed and painted and presented to the office force for their use. Because it is movable, it can be placed at such points as are convenient at any time.

## Moravia Revival Attracts Crowd

The members of the Moravia Stop Alliance are hearing powerful messages each evening when Rev. Jordan R. Pretz delivers stirring sermons. ## Fletcher Sounds Peace Keynote At Capital Banquet

Speaking In Harrisburg, Former Ambassador Champions Universal Peace

### GOVERNOR FISHER PRAISES GRUNDY

(International News Service) HARRISBURG, Nov. 21.—Every legitimate objection to the entry of the United States into the World Court has been fully and fairly met, and in a way which shows that the whole civilized world is anxious to have our co-operation in this great work of peace on our own terms.

Sounding this keynote at the annual banquet of the Pennsylvania Council of Republican Women here, Henry P. Fletcher, former ambassador to Italy, today was on record with the assertion that "world peace, to be enduring, must be founded on justice, and to establish justice the machinery of justice must be provided."

Is Still Opposed  
Fletcher declared that his opposition to the League of Nations had impelled him to hand in his resignation as ambassador during the administration of Woodrow Wilson, wartime President. The World Court, however, is not a "rear entrance" into the league, Fletcher said, and stressed the fact that he still is unalterably opposed to the entry of the United States into the league councils.

"But I am not afraid of the league or opposed to its proceedings or actions so long as it does not interfere in matters of concern to the United States," the former ambassador went on. "I would assure timorous souls in and out of the United States Senate that the United States has nothing to fear from co-operating with

any agency of the league in advancing peace or any other worthy object. We are doing it in connection with the suppression of the opium traffic, in connection with disarmament, and we are none the worse for it. It seems to me a puerile objection that because the league and members thereof can also have recourse to this tribunal we must stand aloof."

Fisher Praises Grundy  
Sharp criticism of the Senate for its failure to carry out party pledges made during the presidential campaign a year ago was registered in an address by Governor John S. Fisher, who came to the fore in defense of Joseph P. "Uncle Joe" Grundy, president of the Pennsylvania Manufacturers Association.

The governor asserted that Grundy was within his rights "as a private citizen and Pennsylvania's champion" in asking the Senate for a protective tariff, and decried the "spectacle of such a man being abused and called names because he has told our lawmakers what we need."

"I long for the return of the days of Henry Clay, Webster and Calhoun, when United States senators deported themselves as gentlemen," Governor Fisher declared. "If it be criminal to approach the United States Senate on matters affecting our prosperity, thank God we have a President who welcomes that sort of thing."

### Suit Over \$1700 Mortgage On Trial

Frank S. Rech Claims He Paid Money To J. O. Rodgers, Agent For J. G. Woods

When court convened this morning the case of Jesse McCommon, administrator of the late James Gideon Woods against Frank S. Rech was taken up for trial before Judge Hildebrand. The suit is brought in an effort to collect a mortgage given by Rech to Woods during the latter's life time. The mortgage was executed in February 1921 and was for \$1,700. The plaintiff claims that Woods never received the money and that the mortgage is still payable to the estate.

The defense contends that the mortgage was placed by J. O. Rodgers acting as agent for Woods and that it has been paid in full the money having been paid into the hands of Rodgers. Most of it was paid by monthly payments but the mortgage was never satisfied.

One of the questions at issue is whether or not Rodgers was the agent of Woods or of Rech. The defense claims that he was the agent of Woods.

Rodgers who was the first witness called testified that he was the agent of Woods. In his testimony he told or having put out money for Woods on another mortgage which he had collected and then turned the money over to Woods. He claimed that he was acting in the same capacity for Woods when the mortgage was given by Rech having placed Woods' money. The case is still on trial.

### Highland Mothers Meet On Wednesday

Regular P. T. A. Meeting Is Enjoyable One; Children Share Program

Meeting at the Highland school on Wednesday afternoon members and guests of the Highland Parent-Teacher association were privileged to witness one of the most enjoyable groups of playlets ever presented by pupils of the different classes there. Mrs. John Elliott, the association's president was in charge.

The first presentation was given by the boys and girls of 3A and constituted a story of the pilgrims. Another which told of the pilgrims was given by the boys and girls of grade 2A. "Who Made Thanksgiving?" was what the third playlet was entitled and was given by a group of 2B boys and girls. "Thanksgiving" spelled out, was given by the 3A girls and boys.

Following the play Miss Helen Allen of the school staff led the children in a group of songs.

Business was transacted and a report was heard concerning a bake sale which the chapter held two weeks ago. It was announced that \$104.30 was secured at that time. The P. T. A. also heard a report of a district convention at Pittsburgh held by the ten southwestern counties several weeks ago.

During the course of the meeting an interesting talk in "Environment" was given by Mrs. R. L. Meermans one of the members of the chapter.

Beware! Football players are popular pets, and soon they'll organize and demand recognition of 10 as a passing grade.

"I've got a hundred testimonials," says Peterson of Buffalo, just as sincere and honest as this one. Years ago, when I first started to put out Peterson's Ointment, I made up my mind to give a generous box for 25 cents, and I am still doing it, as every druggist in the country knows.

I guarantee Peterson's Ointment because I know that its mighty healing power is marvelous. I say to every one who buys a box that it is rigidly guaranteed for eczema, old sores, ulcers, skin diseases, chafing, burns, scalds and sunburn, and if not satisfactory your money will be returned."

## AN ANCIENT PREJUDICE HAS BEEN REMOVED

AMERICAN PROSPERITY and opportunity go forward hand-in-hand with clean-cut well dressed appearance.

THANKS TO LUCKY STRIKE

\$3.45 did it

Gone is the ancient custom that compelled men to have but one hat because they cost so much. Progress has been made and a man now can have 3 or 4 hats (a hat for every occasion) at the former cost of one hat. Gone is the day of \$8 or \$10 hats—thanks to Fisher Bros. men can now buy hats of all styles, even silk lined derbies at \$3.45.

NOW—a Hat for every occasion and every face

Successful American men now have a hat for every occasion, and at Fisher Bros. this year we have offered these three new felt styles in shapes and dimensions that fit every face. Pictured above: (A) the new ST MORITZ which is narrower in the front than the back. (B) the new HOMBURG which curls severely. (C) the new GROVER WHALEN with creased rather than dented crown. ## Jordan Replies To Criticisms

Secretary Of Agriculture Disclaims Responsibility In Disclosures

(International News Service) HARRISBURG, Nov. 21.—Detailed reports of an audit made by main and company in the department of agriculture two years ago and made public today revealed that failure to follow recommendations made by the public accountants was largely responsible for a defalcation of more than \$129,000 to have occurred.

Guy H. Thomas, a former employee of the Bureau of Animal Industry, and Charles C. Stark, both members of a local real estate firm are now in jail charged with the defalcations. The two men, state police charge, included fake vouchers in those presented to pay for cattle killed by state agents and then cashed them under fictitious names.

The period covered in the auditors report was from June 1, 1925 to May 31, 1927. The report recommended strongly that more care be used in checking up on claims for cattle slaughtered because of tuberculosis and for sheep alleged to have been killed by dogs. Frequent cases of fraud have been uncovered in connection with claims for sheep killing by dogs. The auditors also discovered several instances in which employees of the department had received traveling expenses without the necessary vouchers.

One paragraph of the main company report said: "Our examination of the expenditures constituted tests of a number of cases. We noticed in certain instances that claims were paid to cattle owners although there seemed to be no approval of the test by the department. We cite as an example a case in which \$780 was paid on August 1, 1927. The test which condemned the cattle was made without apparent authority of the department. It seems that the claimant had requested the department to make a test inasmuch as he was going to move from Pennsylvania to New York state, but the department replied that it could not be done at that particular time. A study of the correspondence and data on hand in this folder indicated that the claim should not have been passed for payment."

In reply to the auditors criticisms, the Rev. C. G. Jordan, secretary of agriculture, question the experience of the accountants and disclaimed all responsibility for loose practices which they alleged. The Rev. Jordan's reply was filed with the State Budget Bureau as a part of the audit records.

The Rev. Jordan summing up the auditors charges said: "Receiving a group of accountants

would be greatly handicapped in a survey of a department such as agriculture. The fact that they lacked experience and agricultural knowledge in several instances is apparent. It is the conviction of administrative officers who are in control of the department of agriculture under the Fisher administration that they should claim no credit for the work done during the two years under surveillance and disclaim all responsibility for any shortcomings that might show up.

The main audit also revealed that R. G. Bressler, the deputy secretary, who really directs the majority of the department's policies had not even taken the constitutional oath of office as required by law.

"An oversight," the Rev. Jordan replied to that.

Governor John S. Fisher has had a copy of the audit on his desk for more than two weeks and has digested it thoroughly. He has asserted that no action of any kind will be taken in the department until the present probe has been completed.

## Report Mrs. Good Near Collapse As Train Nears Iowa

Train Bearing Body Of Late Secretary Of War Passes Through Chicago Today

(International News Service) CHICAGO, Nov. 21.—As the train bearing the body of the late Secretary of War James Good arrived in Chicago today to be switched to a train en route to Cedar Rapids, Ia., it was learned that Mrs. Good was in a state bordering upon collapse.

Her physician, Major George Beach, refused to allow Mrs. Good to leave her train compartment and announced that she was "very ill."

Thousands stood in the freight yard in silent tribute as a guard from Port Sheridan surrounded the Good funeral coach.

The coach paused here only a short time before proceeding to Iowa where the war secretary will be buried.

Rev. A. G. Hill of Sharon, Rev. and Mrs. C. O. Whitford of Oil City, Rev. and Mrs. Harry Haskins of Ellwood City, Rev. and Mrs. M. B. Miller of Franklin and Rev. and Mrs. Smith of Pittsburgh attended the funeral of Rev. Fox, pastor of the Arlington Avenue Free Methodist church Wednesday.

The value of pearl shell raised during ten years off the north western shore of Australia was more than \$10,500,000.

## The Way OF THE World

By GROVE PATTERSON

### IT'S A FELLOW'S OWN WORLD

Preaching in Cambridge, Dr. Frederick Eliot, himself a Harvard man, says Harvard students spend more time with their studies than students in western universities. He finds the easterner more serious minded. Of course he is wearing Harvard glasses. No school deserves to have it said that its men or women are more studious than the men or women of another school. After all, life's prizes are for the individual who is up to winning them. And there are stout contenders east and west. If your boy goes to the University of Michigan or Wisconsin or Ohio, and is not studious, it is not the fault of the university. It is the boy's fault and yours. Yours, because when he was a little chap you didn't make him work. You didn't put him into the beginnings of the habit of mental industry.

Harvard won't save him. Nothing will save him—but work.

### PEP?

A churchman of note says the average church needs pep and a certain amount of restrained whoopee, under proper supervision, to make it attractive to young people. One wonders just what his idea of the church is. Pep and whoopee have a place in the modern day. At least, they are here. But has the church no greater purpose than to make itself popular? Shall people come up to the church or shall the church go down to the people?

### THE COLD MYSTERY

Cancer isn't the only mystery of medicine. The common cold is a mystery. Sometimes you get it and sometimes you don't, though conditions may seem the same. One thing you can be certain of, you are less likely to have a cold if you keep your physical condition up to par. Sleep enough, eat enough, exercise a little and not too much, worry not at all. Live up to this program and colds will be few.

## Fewer Accidents On Car Lines

Accidents Decrease On Street  
Car Lines—Many Autos  
Hit Street Cars

"Although automobile accidents have increased during 1929, street car accidents have decreased 20 per cent. More automobiles strike street cars than street cars hit automobiles."

This was the statement of Chris Coulthard, transportation superintendent of the Penn-Ohio railway here today.

He made the statement prior to a Safety session of street car and auto bus operators at the company's lecture room.

The superintendent during the session asked the men to be more careful than ever.

He said the holiday season is approaching, that the weather conditions are bad and falling leaves causes automobiles to skid.

## Has the laxative in your home a family doctor's approval?

MOST of us value our health too much to purposely neglect ourselves when we are warned of constipation by bad breath, feverishness, biliousness, a headache, lack of appetite, or that weak, helpless feeling. The continuation of our trouble is more often due to the things we do rather than the things we leave undone.

Some things people do to help the bowels really weaken these organs. Only a doctor knows what things will cleanse the system without harm. That's why the laxative in your home should have a family doctor's approval.

A wonderful product now known to millions of people as Dr. Caldwell's Syrup Pepsin is a family doctor's prescription for sluggish bowels. It never varies from the original

prescription which Dr. Caldwell wrote thousands of times in his many years of practice at Monticello, Illinois. He proved it safe and reliable for women and children; thoroughly effective for the most robust men. He showed it actually corrects constipation. It is made from fresh herbs and other pure ingredients.

Since Dr. Caldwell first permitted his prescription to be put up in bottles and sold through drug stores, it has increased steadily in popularity until today it is the largest selling laxative in the world!

## OH, THESE WOMEN!

By LEOLA ALLARD

Met a man yesterday who was worried half sick about some love letters he had written to a woman. The love was over but the letters lingered on. He says he shouldn't have written them. He didn't explain why.

I now learn that both of them were married when the letters were written. Her husband tired of his status in the home and that marriage ended. The man is still married. The woman who is single again and without prospects threatens trouble.

The man had plenty of love letters from the woman, but the idea of blackjacking her by using them to his own advantage, didn't occur to him. I'll say this much for men, the few who would use love letters that way are criminal types. While any number of "nice" women from good homes have come to regard any game fair so they get the money.

I know a girl who got a fine assortment of letters from a very smart set of males in high positions. She locked them up in a safe deposit vault. Now why do you suppose she did that? Nothing has happened Y-E-T.

I know another girl who was reading some love letters from a society woman to a professional man, who at the moment was all bothered about her. The concealed Sap showed them to her. He thought it would raise his stock. She gave them back—presumably. But she kept one, a very damaging one. The man deserved to have her get it, but what about the woman? She is married and the affair having blown over is happy at home.

The dame who got the letters goes around looking as if she'd swallowed seven canaries and knew where there was another nest full of nice juicy ones.

Wouldn't you be happy and comfortable if you saw that girl sitting down to your writing desk with its pigeon holes filled?

The trouble is that so few people live every day as if they were in glass houses, with the whole world outside on tin-toe, peering in. And as long

as so few do live that way, the fewer who register their heart throbs in ink—the less trouble.

Forbidden letters are like murder—they will out. And WHEN they will, it's the man who has to pay. If you write them don't forget to put at the end "please burn this." I never dug up a trunk full of letters in a murder, suicide, or breach-of-something case, that each letter didn't beg the recipient to destroy it immediately.

A man can tell a woman anything in the world and it won't quite satisfy her. He must put it down, black on white, and then she can read it to her friends, or tie in with blue ribbon or lock it in a vault.

Even if she never does anything worse with it, she seems to feel better, knowing it's there. It props up her vanity when there is no adorer in the offing.

If I'm wrong, write me!

## A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing

elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

## Davies Ending 10 Years' Service

Has Served Eight Years As  
Member Of City  
Council

### MANY STREETS HAVE BEEN IMPROVED

When D. O. Davies term as councilman expires January 6, he will have served the people of New Castle 10 years, two as an alderman and eight as a councilman. Today the councilman said that as yet he had prepared no plans for the future, relative to positions.

He was named alderman in the fifth ward in 1918 and served two years and in 1922 was elected to city council. He has been re-elected but at the recent primaries was not nominated. As a councilman he has served as head of the departments of parks, buildings and public safety.

During his incumbency he has helped to have 52 thoroughfares paved and two others widened. The fire department has had new equipment secured since he assumed the superintendency of the department but believes there is room for other improvements.

When Davies took office as the superintendent of the fire department much hose was poor but a gradual improvement along conservative expenditures has been made and the hose today is in good shape although more good hose could be kept ready for the firemen.

Recently the city purchased new fire equipment for Central and there has been a request that the Knox be replaced, also the equipment at the Park avenue fire department. Davies has his ideas concerning these requests but today pointed out how the North Hill section could be benefited. He said:

"Some day someone will have to take the 'bull by the horns' and make a relocation. Any point now can be reached quickly by Central equipment. The Park avenue department should be moved farther north. Of course this will meet opposition but

### Man Gobbles Like Turkey, Is Killed

Texas Hunter Climbs Tree, Gobbles Like Turkey, Is Killed  
By Unknown Hunter

(International News Service)  
KERRYVILLE, Tex., Nov. 21.—Hugh Day's ability to gobble like a turkey today was held as the cause of his death.

He was shot and killed by an unidentified hunter when he climbed a tree and commenced calling to lure wild gobblers.

### CRUEL NEURITIS IS PUT TO ROUT BY NEW KONJOLA

Other Ills, Too, Vanish Speedily  
When New And Different  
Medicine Is Put To Test.

MR. WILLIAM H. MILLER

"I had neuritis and kidney trouble so bad that I had almost given up all hope of being well again," said Mr. William H. Miller, of Slatton, Pa. Neuritis had such a hold on me that I could not lift my arms. At night I called in pain for someone to help me turn in bed. My back and legs were affected by constant and piercing pains. Because of weak kidneys I had to get up several times each night.

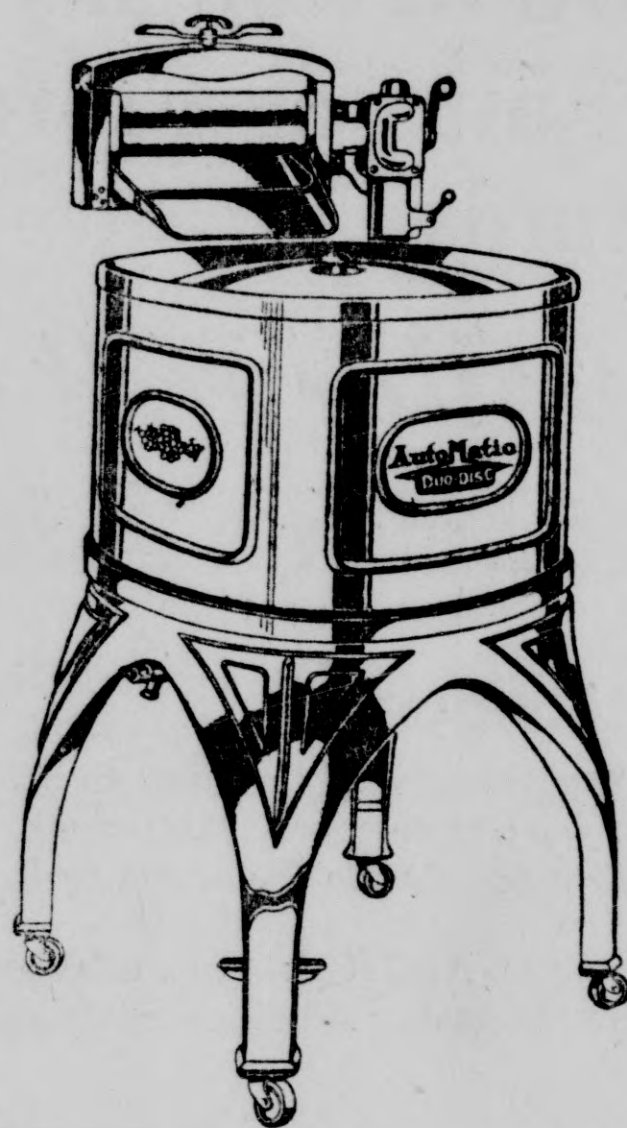

"It seemed almost incredible, but it is true that in five weeks Konjola restored my kidneys to normal action, and in that time the very last sign of neuritis was driven from my body. If there are any who doubt this statement, I will be glad to verify it personally. Konjola will always be in my home, for it has meant health and happiness to me."

Konjola is sold in New Castle, Pa., at Love & Megown drug store, and by all the best druggists in all towns throughout this entire section.

## Coste-Bellonte End Long Flight

Famous French Airmen Complete Record Breaking Flight; Set Non-Stop Mark

(International News Service)  
LEBOURGNET AIR FIELD, France, Nov. 21.—Captain Dieudonne Coste and Maurice Bellonte, two of France's greatest airmen, returned to Le Bourget at 11:40 a. m. today (6:40 a. m. Eastern Standard Time), following an epochal flight over Europe and Asia in which they set a new non-stop endurance record.

Coste and Bellonte were greeted by a crowd of more than 1,000 when they arrived from Rome, their last previous stop on their flight back from Asia in easy stages.

The airmen set the new record in flying from Paris to Tsitsihar, Manchuria, a distance of approximately 5,500 miles.

## Rheumatism Pains Stop in 7 minutes

I had pains in my right shoulder down to the elbow. After the first application of MUSCLETONE I enjoyed a full night's rest. I am going to continue to use MUSCLETONE. Solomon Salade, West Leasport, Pa., Pleasant Valley House.

Anyone who honestly wants to end the pains of rheumatism, lumbago, sciatica or neuralgia can do so. Science has found a new way to end muscular agony and distress so amazingly speedy—and safe—it seems almost miraculous. Pain actually stops in 7 to 10 minutes. Quickly, accumulated toxins absorb and complete relief is found even in severe conditions.

MUSCLETONE acts by injection. Nothing is taken internally. No drugs—no dosing. Just a simple liquid applied directly to the troubled muscle or joint. Yet it acts invariably and amazingly. And this is important—it never burns or irritates. All druggists have MUSCLETONE for \$1.00.

## Four Pennsylvania Sisters At Tomb

(International News Service)  
MALDEN, Mass., Nov. 21.—Four Pennsylvania women—sisters from four different cities in that state—were among the 20,000 pilgrims Wednesday at the tomb of Rev. Fr. Patrick J. Power in Holy Cross cemetery, where many miraculous cures have been reported.

The women, Mrs. L. D. Speece of Kingston, Pa.; Mrs. T. R. Garvey of Wilkes-Barre, Pa.; Mrs. John Christopher of Scranton, Pa., and Mrs. Frank Eagan of Jermyn, Pa.—plan to organize a Pennsylvania pilgrimage of several hundred to come here. Mrs. Speece stated she was cured of a long standing ailment at the shrine of St. Ann De Baupre in Quebec.

## Find Tickets In Car Fare Boxes

Although the token system was adopted by the Pennsylvania-Ohio Electric Railway company about 13 months ago not all of the tickets which were sold prior to that time have been used and from time to time one is found in the fare box, according to Ernest Grofend, acting cashier at the local office.

The token system was adopted for economical reasons as the paper tickets could only be used once and the printing cost was enormous. The tokens are metal and can be used for years.

## Hunter Is Shot By His Companion

BUTLER, Pa., Nov. 21.—Butler Cavalero, 28, well known in local sport circles was severely but not dangerously wounded near Fenelon, east of Butler when he received the contents of a shotgun in his right leg and hip.

When Leo Reed, 19 of Butler fired at a rabbit which had unexpectedly leaped from underbrush he caught Cavalero who was standing about 40 feet away.

The wounded man was brought to Butler in an automobile and after being treated in the offices of a physician was taken to his apartment on Center avenue. The physician removed 30 shots which were imbedded in Cavalero's flesh.

## KIDNEYS SELDOM FREE FROM POISON

Clean Them Out And Backache, Sideache And Bladder Troubles Go.

It's mighty close to the truth to say that there are ten thousand apparently healthy people in America today, who will have kidney disease, dropsy or some form of kidney disease within two months.

If you have backache, or the slightest suggestion of backache, don't take chances. Get a bottle of Thompson's Barosma today and give your kidneys a thorough cleaning. They probably need it. If they don't, Thompson's Barosma is a good tonic anyway and will do you good. Price \$1.00.

Thompson's Barosma is guaranteed to relieve kidney or bladder disease, no matter how distressing, or money back. Put up in liquid form, is quickly assimilated and goes directly to the seat of trouble. The very first dose should make your sick kidneys feel better, but bear this in mind when constipation is present. Golden lax Tablets should also be used. 25c and 50c. For sale at all drug stores.

## SHERWIN-WILLIAMS PAINT HEADQUARTERS

THERE'S NO PAINT BARGAIN LIKE SWP QUALITY!

Our most valuable asset is the public confidence of this community. Only by selling merchandise that will give absolute satisfaction can we expect to grow. And that is the only kind you will find here. Sherwin-Williams Paint Products are typical of the class of goods we carry. More people buy Sherwin-Williams paints and varnishes than any other brand—which is just another way of saying that they are the world's greatest paint values. Look over our Friday and Saturday Suggestions at friend-making prices. You'll find hundreds of others just as good at our store.

## Friday & Saturday Suggestions

### Save by using the world's finest floor varnish

Your floors are subjected to the constant tramp, tramp, tramp of nailed heels—the sliding and scuffing of little feet—the moving of heavy furniture—spilled water.

A varnish must be a world's champion for punishment to stand up under this, month after month, and come back for more.

And that is what S-W Mar-Not Varnish is—a world's champion. It is made especially for use on floors. It has pigskin toughness to resist continuous grind. You may dent the wood but Mar-Not will still cling to its surface. Dries overnight with a rich, long wearing luster. Hot or cold water does not affect it.

Don't wait until floors look shabby. For best results varnish them now with Mar-Not.

Grove City Club Hosts At Oyster Supper To Mercer And New Wilmington Clubs

GROVE CITY, Nov. 21.—A large number of the members of the Rotary clubs of Mercer and New Wilmington were entertained Tuesday evening in the Penn Grove hotel at an old-fashioned oyster supper by the members of the Grove City club.

The banquet hall of the Penn Grove hotel was filled and an enjoyable time was had. During the supper the guests were entertained by a quartet of local Rotarians, including Ted Helman, Dr. P. W. Allen, Harry Pollock and Earl Bruner. Rotarian Joseph Ketter had a prominent part on the program when he presented his well known reading on Lincoln.

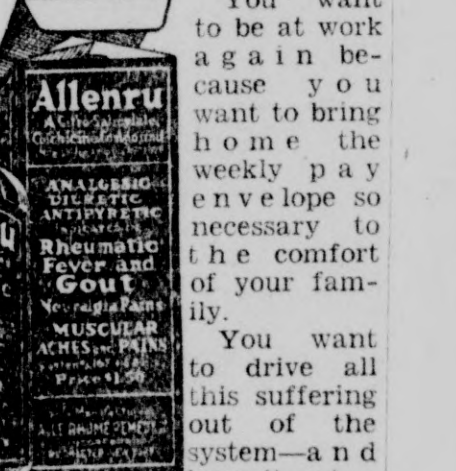

Short talks were given by the presidents of both Mercer and New Wilmington clubs.

# Thousand At Charity Ball

Benefit For New Castle Hospital Nurses Home On Wednesday Night

FUND OF \$1,000 PROBABLY NETTED

Nearly a thousand people filled the ball room and auxiliary ball room of the Cathedral Wednesday evening, November 20, when a Charity Ball for the new nurses' home of the New Castle Hospital was held.

The main ball room was taken over for the dancing. In the west dining room many tables of bridge and euchre were in progress, while in the main dining room, bingo was the diversion, with lunch and confectionery stands doing a big business.

Miss Ann Maffley was general chairman of the evening and with her served a large corps of committee men and women who disposed of tickets, had charge of the various sections of the ball, and aided in making it the success it was.

**Nets Good Sum**  
While no accurate tabulation was possible Wednesday evening, it is thought that about \$1,000.00 was netted from the Charity Ball. This will be placed in the fund which has been started to erect a Nurses' Home.

For some time the present home for the nurses at the New Castle Hospital has been cramped and inadequate. With the growth of the hospital has come an attendant increase in the nursing staff and to care for the nurses, a new home will be erected when enough money is in sight to warrant starting it.

## Padlock Places In Warren, Ohio

WARREN, O., Nov. 21.—Liquor which according to old timers has been unusually hard to get in Warren since last week when State Prohibition Commissioner Rupert R. Beetham accused Police Chief B. J. Gillen of failure to make arrests for liquor violations was much harder to procure today following the padlocking of five known bootleg joints by Sheriff J. C. Risher and his deputies on an order of Common Pleas court.

All of the padlockings were in the "Plats" section, the city's reputed underworld.

Two or more arrests at each place for liquor violations were cited in the petitions prepared by City Solicitor W. M. McLain.

More padlocks are promised by Chief Gillen in his drive to "wring Warren dry."

## ROAMING With Richards

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle

There are clubs and lodges and associations to commemorate the founding of this or that or the discovery of something. Lodges that feature, freedom, justice, democracy, fidelity, trust and the many other virtues. Associations that are built around the battle of Something-or-Other. Organizations designed to promote bigger and better feelings, and all of them functioning totally separate and apart.

Up until now nobody ever thought of paying tribute to the mustache, with an organization and this seems to be one lodge the professional organizer has overlooked. The oversight has been taken care of in the New Castle Works of the American Sheet and Tin plate Co.

Mustaches have come into their own or onto their own, down there and the next step is to organize the lads who are now sporting them. Some thought has been given to what the name should be although Knights of the Waxed End has been suggested. Bushfaces is another suggested name while still another is The Mystic Order of Mustaches.

As Jimmy McCann said the thing is a rather ticklish subject and the name must be selected with care. To join one must raise a mustache. Not necessarily one of the walrus type, with loose ends flowing down over one's chin. Nor yet one of those close cropped military affairs like Ed Russell's. Just an ordinary mustache gets you in which is fortunate for Dick Gwilym, otherwise he would have to belong to the junior order for a while.

Some of the boys have raised heavy silky crops, while others show the need of a little cultivation, that is the mustaches, not the boys. At the first banquet which has not yet been set mustache cups will be given as favors and no barbers will be allowed.

Roamed up around the Cathedral a while last night and trod a hoof at the Charity Ball, which was for the new Nurses' Home at the New Castle hospital. From the number of doctors and nurses present, you might have thought an epidemic was imminent.

A fellow could eat candy with impunity last night, confident in the knowledge that there were plenty of doctors present, and plenty of nurses to take your temperature.

One of the nurses absent mindedly looked at her watch about 9:30 and told a visitor that he would have to leave, that the time was up.

Took a ride out Sampson street the other afternoon and what a street that is. The pattern for the paving seems to be taken from a broken-down washboard, with here and there holes that resemble a shell hole. After driving that street every day, it's a wonder that the garbage trucks have any springs in them.

Hotel reservations are coming into the city at the present time something like a snow storm. The convention of the Pennsylvania State Educational association takes place on the day after Christmas and the need for quarters is large. Every available hotel room in the city is about gone or will be shortly and many hundreds of the delegates will be assigned to private homes.

A Lawrence county girl has a prominent part in the convention. Miss Emma Matthews is the editor of the association magazine and will have charge of the School Press section of the convention. Student editors and reporters will be here from many sections of the state and this particular part of the convention has been assigned to the George Washington Junior high school.

The exhibits being planned are the most extensive ever seen in a state convention and the New Castle school system is going to make a name for itself judging from the manner in which the arrangements are going forward.

## HIGH LIGHTS OF HISTORY

By J. Carroll Mansfield

The Story Of The World War  
172—Events Of November, 1917.

NOVEMBER, 1917, WAS A MONTH OF THE WORLD WAR FILLED WITH MEMORABLE EVENTS, SOME OF WHICH WE HAVE ALREADY REVIEWED. NOVEMBER 15, 1917, GEORGES CLEMENCEAU, "THE TIGER OF FRANCE," WAS MADE PREMIER OF THE FRENCH REPUBLIC.

ALSO ON NOVEMBER 15, FORCES OF ALEXANDER KERENSKY, DEPOSED DICTATOR OF RUSSIA, ATTACKED THE BOLSHEVISTS NEAR PETROGRAD, AND WERE DECISIVELY BEATEN BY THE "RED GUARDS." KERENSKY FLED FROM RUSSIA IN DISGUISE.

NOVEMBER 30, 1917, THE BRITISH AND GERMANS WERE LOCKED IN A TITANIC GRAPPLE BEFORE CAMBRAI, AS THE LATTER LAUNCHED A TERRIFIC COUNTER-ATTACK ON BOTH FLANKS OF THE SALIENT TAKEN FROM THEM BY LORD BYNG A WEEK BEFORE.

ON THE SAME DAY, AMERICAN ENGINEERS AT WORK BEHIND THE BRITISH LINES IN THE CAMBRAI SECTOR SUSTAINED CASUALTIES NEAR GOUZAUCOURT.

TOMORROW—THE SUPREME WAR COUNCIL.

Cincinnati Reported Angling With Chicago Cubs For Rogers Hornsby

## WAS BIG "FLOP" IN SERIES GAMES

By DAVIS J. WALSH  
International News Service Sports Editor  
NEW YORK, Nov. 21.—Can it be that it is somebody else's turn to have all of that rudimentary fun in supporting Rogers Hornsby in the style to which he courageously has accustomed himself on a \$40,000-a-year basis, personally, I doubt if it can be. The national league is bound to run out of \$40,000 welcomes before Mr. Hornsby runs out of years to his contract. However, some of the boys seem to be writing him off as the second baseman of the 1930 Cubs and, with their wonted generosity, are trading him to the Cincinnati Reds for Hughey Cruz "and others," the latter being added by way of establishing credibility.

And, considering what has happened to the gentleman during the last four years, who are we to doubt this version? Let he who is without sense among you cast the first doubt.

**One-Year Stands**  
The fellow was firmly established in St. Louis in 1926. He was thoroughly entrenched in New York in 1927. He was the rock of Boston's feeble hope in 1928. He was the foundation of Chicago's success in 1929. Why not, therefore, the savior of Cincinnati in 1930? He seems to have a lot of one-year friends around the circuit. They get him but they can't keep him. Such popularity must be deserved.

It all started when John McGraw got confused or something and gave the man that long contract at such very lengthy money. Since then, Hornsby has slept beside a timetable. In order to report promptly before his new employer changed his mind. The thing apparently has become a game, like the black spot racket with which old John Silver and the boys used to amuse themselves around Treasure Island. This was all good, honest fun and the lad who got the black spot never was known to complain. He never was known to do anything again.

Anyhow, Chicago had to have Hornsby last season and it got him. Maybe the club still wants him, for \$40,000 is only the change out of a dollar to Wrigley and besides the man does strike that baseball with considerable frequency and force. But he is being chided rather bitterly by some critics for his display in the last world series and sort of thing sometimes leads up to something drastic. In any case, they are crusading for youth and dash and flaming ambition out in Chicago and Mr. Hornsby, by neither is a combination of these virtues nor any of them.

**Reds Want Roger**  
Just why the Reds were nominated in this emergency I wouldn't care to say, unless it happens that they have dominated themselves.

They have changed ownership since the close of the season and it takes a new owner some little time before he discovers how slowly the sum of \$40,000 is counted in baseball. However, it is understood that the Reds figure they must have hitting this time at any cost and, if they are of a mind to acquire Mr. Hornsby, he can be relied upon to give them plenty of both—namely, (a) hitting; (b) cost.

MEADVILLE, Pa., Nov. 21.—Further encouragement for the Allegheny College football squad came today with word from Latrobe that the field will likely be muddy when the Methodists meet St. Vincents Saturday, thus giving the local boys an edge because of weight and the setback to the aerial game planned by Vincents.

## Geneva Is Preparing For Westminster Tilt

(Special To The News)  
BEAVER FALLS, Pa., Nov. 21.—Realizing that a victory over Westminster's Titans would bring a possible tie for the Conference championship, Coach Flenkner is making every effort to have Geneva primed for next Saturday's battle at Beaver Falls.

The spirit of the Covenanters is undimmed by four successive defeats, which can be chiefly attributed to the injuries that have kept several first-string men out of every game. The jinx still pursues the Covenanters and for the Westminster game, Capt. "Red" Davis, John Knapik and George Johnson will see the game from the bench. The first two, have done all Geneva's kicking and passing, and Knapik is the most valuable man in the Geneva lineup. However, the remaining regulars and the substitutes for these three can be relied upon to do their best against the ancient foe and Westminster can expect trouble. Ransom's return has bolstered up the line. McKee has played a bang-up game at tackle in Johnson's place, and Temerario gained all the Covenanters yardage in the Boston U. game. Seaburn, kicking his first game, did very well, as did Kimble at passing. The Geneva attack has been greatly speeded up. Four bands will provide music at this game.

Wilkesburg High plays Beaver Falls High at 12:30 and their bands will be on hand at Reeves Field for the varsity game.

## Sheldon Clark Tendered Post Left By Harmon

Wealthy Sportsman Reported Selected To Succeed Paddy Harmon In Chicago

## JACK DEMPSEY NOT CONSIDERED

(International News Service)  
CHICAGO, Nov. 21.—Uppermost among a flock of rumors regarding the selection of a successor to Patrick (Paddy) Harmon as president of the Chicago Stadium corporation came the one today which says that Sheldon Clark, wealthy sportsman, had been tendered the post.

Sheldon, who is vice president of the Sinclair Refining company, has been quoted as being willing to accept the job from which Harmon was ousted by the board of directors. Reports which circulated after yesterday's directors' meeting hinted that some of the heavier stockholders in the stadium corporation had demanded Sheldon's selection.

Jack Dempsey, it was learned, had been stricken from the list of possibilities because it was thought he was not well versed in administering to the needs of a \$7,000,000 corporation.

Mingled with the rumors attendant to selecting a new chief executive was the report from Gen. John Clinlin, chairman of the Illinois boxing commission, who charges that the stadium is short weighting the commission's tax department by making alleged inaccurate reports regarding ticket sales.

Harmon has denied Clinlin's accusations.

## Spectators Barred From Bridge Turney

(International News Service)  
CHICAGO, Nov. 21.—Spectators were barred today from the American Bridge League's national tournament in progress here in response to a request for quiet from the participants.

Qualifying play was begun yesterday and will be finished tonight. The finals will be played tomorrow.

## Senior A Wins Floor Title

Senior A's Defeat Sophomore B's To Win Senior High Championship On Wednesday

Miss Laura Carson's Senior A basketball team, by virtue of their 23-18 victory over the highly touted Sophomore B team last night at the senior high school floor, are the newly crowned champs of the Senior High school girls' interclass basketball league. In another game the Junior B team defeated the Senior B maidens, 19-13.

The championship game was in doubt until the final whistle blew, with the upper classmen leading by five points. The Seniors got the jump on the Sophomore team in the first half, which ended 16-7. At the start of the third quarter the Sophs appeared to be headed toward victory by holding their opponents while they were piling up points. The third quarter ended 19-14 favoring the Seniors.

As a result of their win the Seniors will receive as a token of victory basketball emblems. Miss Sara McGoun, the new girls' physical director at the high school, was at the head of the league. Miss McGoun officiated the championship tilt in a very pleasing manner. For the Seniors the playing line-up featured, while Kraft, Confer and Kevinne were the best for the losers.

In the second game Updegraff and Twaddle featured for the losers, while Twaddle proved the outstanding star with eight baskets, for the winners. Following is the summary of the games played last night at the high school:

**First Game**  
Senior A—23 Sophomore B—18  
Raney ..... F. .... Kraft  
Ridley ..... F. .... Roth  
Gibson ..... C. .... Brittner  
Anderson ..... S. C. .... Shellan

## Notre Dame Will Play Northwestern Team On Saturday

Irish May Be Without Services Of Famous Coach In Northwestern Game

(International News Service)  
NOTRE DAME, Ind., Nov. 21.—Notre Dame today was to take its last hard workout for the Northwestern game, the eighth stiff contest of the season.

The unbeaten Irish warriors will journey to Evanston, Ill., again without the presence of Coach Knute Rockne, who has been sentenced to another week in bed by his physician, Dr. R. L. Seseinch.

A blood clot in Rockne's leg has limited the grid mentor to directing his squad's drill by remote control.

The squad went through a long of offensive and defensive scrimmage yesterday in the gymnasium due to a snow-covered practice field.

It will be the final curtain on football in New Castle for the season. A season that has been in and out, but summing it all up, a season that has been really successful. New Castle did not have the material this year for the usual crushing attack. Early in the season it seemed likely that several games would be lost and the fact that the team has won as many as it has, indicates that better results have been secured than were anticipated.

One fair season and seven good ones out of eight isn't so bad, and the majority of the fans are satisfied that this season was just one of those

**Grid Camp Briefs**

(International News Service)  
NEW HAVEN, Conn., Nov. 21.—A short scrimmage today in which the varsity will run off a few plays and Yale's work for the Harvard game will be completed.

Judging from his appearance when he came on the field yesterday, Albie Booth will not be used against the Crimson.

The Blue varsity looked especially good on their aerial plays yesterday as it trimmed the scrubs in a lengthy scrimmage.

CAMBRIDGE, Mass., Nov. 21.—A second secret practice was scheduled for today as Harvard neared the end of preparatory work for Yale.

Punting and drop-kicking occupied a major part of yesterday's brisk workout.

NEW YORK, Nov. 21.—The undefeated Fordham team, one of the strongest defensive outfits in the East, is expected to show the full power of its attack Saturday against Bucknell. Practice this week has been devoted almost entirely to building up a strong offensive. The passing game has been stressed by Coach Cavanaugh.

PITTSBURGH, Nov. 21.—With both Pitt and Tech football teams idle, Duquesne and the Haskell Indians will hold the center of the gridiron spotlight here Saturday at Forbes Field.

The Dukes game with Waynesburg, originally slated for Thanksgiving morning has been advanced to Thanksgiving eve and will be played under the floodlights at Forbes Field.

## Washington High Final Opponent

Football fans who must have their weekly grid battle on Saturday afternoon must look elsewhere for it this week. The New Castle high school squad gets a day of rest and the only games available will be the ones in nearby cities and towns.

Undaunted by the one touchdown loss to Greensburg, Coach Phil Bridenbaugh has been drilling the squad for the Thanksgiving game with Washington. The tilt of a year ago was never fully settled, both teams leaving the field feeling that the breaks had been against them.

**Light and Fast.**

A dry field will help Washington this year, although from the scores they have piled up they seem to have needed little help. From reports trickling in from Washington county, the Little Presidents are "on" this year. They have a light team, but fast and well trained. Hank Day has turned out another one of those smooth functioning football machines, it seems, and New Castle will have something more than a load of turkey to handle this Thanksgiving.

It will be the final curtain on football in New Castle for the season. A season that has been in and out, but summing it all up, a season that has been really successful. New Castle did not have the material this year for the usual crushing attack. ## Main Factors In New Bridge Pact Sign Agreement

Special Meeting Of The Borough Council Wednesday In Interest Of  
New Viaduct

No Left Turns Off Line Avenue Coming Into The Borough Limits, Is Decision

ELLWOOD CITY, Nov. 21.—At a special meeting of the Borough Council, P. and O. company, B. and O. Railroad and Tube mill representatives last night in the City building, an agreement was signed regarding the erection of a viaduct over the tracks at Second street for the purpose of relieving a traffic hazard. This viaduct was one of the specifications in the bond issue that was successfully passed, and \$30,000 has been appropriated for its erection. As soon as the proper proportions are decided upon between the various companies concerned, the process of building will be started. At last night's meeting the agreement was signed by the various companies interested, and the Borough.

Council also authorized the police committee to erect a sign at the entrance of the borough on Line avenue stating that there will be no left turns. Since the conclusion of the paving of Wampum avenue, several near-accidents have occurred on Line from incoming motorists turning left

in front of the traffic, to enter Wampum avenue. It is planned to make the latter a one-way street eventually.

Council gave permission to Rev. C. H. Erickson, an evangelist, to build a Tabernacle on Sixth street above the fire station for the purpose of holding revival services.

Shelby Basketball League Opens Here On December Third

ELLWOOD CITY, Nov. 21.—December 3, Tuesday night, has been set for the opening game of the 1929-30 season of the Shelby Interdepartmental Basketball league at the Shelby social club.

The circuit embraces five teams last year, but another has been added for this season. The finishing Club Draw five, managed by Frank Cain, and serving as the vehicle for the debut of several players new to the League. The others will be the same as last year: Specialty, Champions, Hot Mills, Mechanical, Office, Inspection and Laboratory.

Games are carded for two nights each week with double-headers each night. Up until December 18 they are scheduled for Tuesday and Saturday nights, but on that date Tuesday will be abandoned in favor of Wednesday.

## Women Will Elect New Officers Soon

ELLWOOD CITY, Nov. 21.—At the regular monthly meeting of the Women's Missionary society of the Lutheran church Wednesday evening it was announced that the annual election of officers would take place at the meeting December 13 and a nominating committee was appointed as follows: Mrs. C. E. Hallerman, Mrs. C. H. Blank, Mrs. A. E. Scheide-mantel. Official reports from standing committees will be heard also.

Mrs. P. W. Blocher and Mrs. Oscar Dahl had charge of last night's program "The Fruits of Joy" and several interesting papers were read. Delegates Mrs. L. H. Haberman and Mrs. George Garmon gave reports of the Leeburg convention.

Hostesses were Mesdames John Miller, H. F. Fleisher aided by Mrs. John Bloom, Mrs. Alfred Melzer, Mrs. Andrew Zikah, Mrs. Fred Melzer.

## Locals Play Final Game In Valley

Exciting Contest Bring Grid Season To A Close Saturday On Monaca Field

ELLWOOD CITY, Nov. 21.—Ellwood City High school's grid season will be brought to a close this Saturday when the Ellwood High warriors travel to Monaca to clash with Monaca High. This will be the last battle for nine of the first string men and three on the second and Lee's machine is very anxious to end the season with a victory to leave a bright impression for their coach who ends his coaching at the local high school.

Monaca, after a poor start, has developed a strong eleven and held the strong Rochester crew to a 12-0 score. Coach Berkman's squad flashed some real form and strength by defeating the haughty Midland eleven who were advancing towards the championship. If they play the same brand of football as they displayed against Midland, Ellwood will be forced to put up a real struggle to overcome this enemy.

Realizing that this is the last battle that he will direct Lee is making all preparations possible for this closing contest and his lads are going into the contest with all the spirit that can be gathered. Ellwood displayed a fine running attack against Rochester last Saturday but lost by a close margin of 6-0.

Among those who will play their last game for the blue and white are: Bill King, fullback; Willie Justine, halfback; John Pastin, halfback; Gross, quarterback and on the line, Frank Barile, end; Gerald Welsh and Floyd Smilek, tackles; Bill McKim, center and Fred Wehman, guard. Ellwood according to this loses nine of the first string with only Benny Rocco, guard and Neff, end, remaining from this year's team. The Tubers will also lose by graduation three of the second string men as follows: Pete Howe, backfield man; Edward McCloskey, end; and Edward Jenkins, tackle.

## Presbyterians Have Thank Offering Luncheon Wednesday

Missionary Speaker Endorses  
Statements Made In "Mother  
India" As True

ELLWOOD CITY, Nov. 21.—About forty women attended the Thank Offering luncheon at the Presbyterian church Wednesday afternoon and enjoyed the afternoon program.

The speaker, Miss Emmaline Reed of Erie, who has just returned from a tour of the world, in the mission fields, gave an address and concentrated her remarks on India, where she spent four months. When questioned regarding that much disputed book "Mother India" she stated that while she was not in position to give an opinion herself, she had questioned a missionary who had resided and worked in India for the past thirty years, and was told that all incidents related in the book were true, and many others could be told.

Mrs. Judd Turner was chairman in charge of the very successful luncheon and a general good time was enjoyed.

## Daufen-Anderson Ceremony Wednesday

Pretty Home Wedding Unites  
Miss Mildred Daufen And  
Robert W. Anderson  
Of Pittsburgh

ELLWOOD CITY, Nov. 21.—Miss Mildred Cleo Daufen, daughter of Mr. and Mrs. Irvan Daufen of Pom-bell, became the bride of Robert William Anderson of Pittsburgh at a pretty home ceremony at high noon Wednesday. The nuptials took place at the home of the bride in the presence of forty close relatives and intimate friends. Rev. L. J. Baker of the Trinity Lutheran church officiated.

The marriage took place in front of banked palms, ferns and chrysanthemums in the sun parlor of the Daufen home and this pretty color scheme was carried out throughout the home, a pretty effect being achieved by means of smilax on the stair rail, down which the bridal procession came. The bride looked lovely in a white satin gown and carried a shower bouquet of bridal lilies and roses. She was attended by her sister Miss Helen Daufen, who was attired in beige taffeta, and carried pink roses. The procession march from Lohengren was played by Mrs. Robert Little of Pittsburgh, a school friend of the bride.

At the conclusion of the pretty ceremony, at which time the bride was given in marriage by her father, a wedding dinner was served with covers laid for 12 at the bride's table, places being marked for members of the immediate family and Mr. and L. J. Baker. The large wedding cake occupied the place of honor, flanked by four tall tapers caught to the center chandelier by white maline ribbons. Mr. and Mrs. Anderson are now on a post nuptial tour of the south, visiting relatives in various points, until they reach Coral Gables, Florida, where they will remain a month. Upon their return they will be at home to their many friends, in Pittsburgh, where the groom is engaged in the garage business. The bride is a graduate of the local hospital, and enrolled for training in a Pittsburgh hospital before her marriage.

## Slippery Rock To Have Banquet

ELLWOOD CITY, Nov. 21.—The annual Fathers and Sons banquet takes place Friday night in the dining room of the church, with the following program planned:

Joseph Mentzer will act as Master of Ceremonies and the program will open with a prayer by J. M. Houk, assistant superintendent of the Sunday school; There follows instrumental music by Sam Houk; vocal solo, Charles Rabberman; appropriate reading, John Meahan; Duet, Clyde Harper and Richard Wilson; An original poem will be composed for the occasion by M. C. Stevenson and recited by his son Donald.

The address of the evening will be given by Rev. Hugh Stevenson of Farrell, member of the State Legislature.

PAGEANT REHEARSAL.  
ELLWOOD CITY, Nov. 21.—Final rehearsal for the Thank Offering pageant of the Trinity Lutheran church takes place Friday night. The presentation is Sunday night and it is entitled "The Thank Offering Box Convention."

YOUNG MATRONS CLUB.  
ELLWOOD CITY, Nov. 21.—Mrs. Burton J. Bell of Glen avenue will entertain the members of the Young Matrons club Friday evening November 22 at her home. Bridge will be the order of play.

## NEW YORK STOCKS Moderate Upturn Of Stock Market Prices

(International News Service)

NEW YORK, Nov. 21.—The public utility stocks, with a few active shares, and railroad equipment shares were the leaders today in a moderate upturn of prices which carried a dozen or more of the favorites from 1 to 3 points above Wednesday's close. Further easing of world-wide money conditions as evidenced by the cutting of the Bank of England's rate to 5 1/2 per cent, and constructive developments at Washington were the principal factors in stimulating a broader demand for stocks in the first hour.

Baldwin Locomotive, an old speculative favorite which has been on the shelf for about two years, was the leader of the railroad equipment stocks, rallying in active trading to 28. The billion dollar expansion and equipment program of the American railroads in 1930 will provide big business for the manufacturers of locomotives, cars and other forms of equipment, as well as the steel concerns which furnish the bulk of the material used.

Standard Gas again displayed strong leadership in the utility group, with a new 7-point jump to 109. The stock is up 37 points from last week's low. American and Foreign Power above 71 showed a 20-point recovery from the low of the break. Consolidated Gas, American Waterworks, Columbia Gas, United Corp and Pub-

lic Service of New Jersey were in good demand.

Industrial stocks slipped back a point or two in the second hour as profit-taking and short selling increased in volume. The Bears were on a still hunt for "weak spots."

United States Steel at 165 1/2 was down 2 1/2 points from Thursday's close, and by the same comparison shrinkage of 1 to 3 points were shown in Union Carbide, Westinghouse etc. The moderate rise in the oils accompanied confident statements of the heads of the industry relative to their gratifying success in curtailing crude oil production California and Mid-Continent. Standard of New Jersey sold above 63 for a fractional gain and higher prices were quoted for Atlantic Refining, Sinclair, Pan American, Texas Corporation and Standard of New York.

The call renewal rate was 5 per cent, with the usual outside competition at 4 1/2 and 4 per cent. Another "eighteen" was clipped off bankers' paper under 4 per cent. Trading was in comparatively small volume, with the ticker only 13 minutes in the second hour. The Bulls carried the fight to the Bears in important sections of the market, forcing them to cover at slight advances in prices. The dividend rails like Chesapeake and Ohio and New York Central were in good demand a point or two above Wednesday's close.

## Class Plans Sale Of Christmas Seals

ELLWOOD CITY, Nov. 21.—As is customary, the members of the C. A. Martin Bible class of the Presbyterian church will sell tuberculosis seals this Christmas with the sale starting November 29. Mrs. Lewis Nickum is general chairman and in charge of the First ward. She will be assisted by Mrs. T. L. Haines, second ward; Mrs. W. P. Thompson, third ward and Mrs. T. C. Marshall, fourth ward. 70 per cent of the proceeds will be used locally.

The class enjoyed a delicious tureen dinner Wednesday evening at the church and planned for a Christmas party, December 16.

### Willing Workers Plan Annual Meeting

ELLWOOD CITY, Nov. 21.—Willing Workers of the Trinity Lutheran church enjoyed an all day meeting Wednesday and planned for the annual meeting of the society on December 4 at which time new officers will be elected. There will be no meeting next Wednesday. Mrs. Ford Weyman and Mrs. Henry Schwinsberg have quiting orders at their homes.

A tureen luncheon will feature the December meeting.

### Ladies Night At Local Rotary Club

ELLWOOD CITY Nov. 21.—The ladies will be special guests at the Thanksgiving meeting of the Rotary club this evening in the dining room of the First Presbyterian church. Rev. Robert H. Little of the M. E. church will explain the organizations of the Thanksgiving customs that have been handed down through centuries and Miss Virginia Kerr will contribute a reading.

### Inter-City Bridge Meets Wednesday

ELLWOOD CITY, Nov. 21.—The Ellwood half of the Inter-City Bridge club emerged victorious at the semi monthly meeting with Mrs. Frank Moltrup of Beaver Falls. Mrs. B. M. Lawther and Mrs. Fred Swanson both of this city won scores honors.

Dinner was served with covers laid for eight. In two weeks Mrs. Harold Seidel of Fifth street will entertain.

### COMMITTEE MEETING

ELLWOOD CITY, Nov. 21.—Members of Mrs. F. L. Schweitzer's committee of the Women's club will meet Friday afternoon at the home of Mrs. Lillian Thomas of Glen avenue. The purpose of the meeting is to confer with a representative of a production company regarding a play which will be given some time in December for the purpose of raising money to float the Community Home project, now occupying the attentions and efforts of the Womens Club.

### CASTLEWOOD CLUB

ELLWOOD CITY, Nov. 21.—Members of the Castlewood club will meet Tuesday November 26 at the home of Mrs. William Herge of Todd avenue. The place of meeting was changed on account of illness.

On a few occasions the northern lights have been seen as far south as Mexico City.

## Make Food Desirable For Child

Suppose the baby has developed strong dislikes. What should you do if he refuses to eat certain solid foods, or if he flies into a rage when they are placed before him?

In the first place consult your physician and follow his advice. If his advice does not conflict with what I say proceed as follows:

Assume that the child will eat when he is hungry and that your task is to cultivate in him an appetite and to avoid creating a dislike for food. Do not, therefore, coax the child to eat. Do not put food in his mouth when he shows signs of disliking it. Let him feed himself with a spoon or his bare hands at the earliest possible date.

Put only one food before the child at a time and only a very small portion of it—not bigger than a lima bean. If the child plays with it or objects to its presence, remove the food at once and consider the meal ended. Let there be no ceremony, no remarks, no expression of emotion by you or by any other adult. Be as nearly like a machine as possible. In extreme cases it may be best for the mother or nurse (never both) to deal with the child apart from the family. Let the child get down whenever he wishes to do so.

If the child can walk don't put him in a chair. Put the one food (a very small portion of it) which you consider most important on a low table or a chair where he can easily see it. Call his attention to it in a master-of-fact way, but do not coax him to eat it. Say nothing. Go away, preferably out of the room. After about five minutes, by the clock, return. If the child is not eating the food or has not eaten it, go like a machine, carry the food to the kitchen and empty it into the garbage. Say nothing about food and do not bring about it until the next feeding time, no matter what the child says or does. In all other respects treat the baby as if nothing had happened.

At the next regular feeding time choose another food considered very important but which he does not like, and proceed exactly as before.
